DESIGN EXPERIENCE

Product Designer – Roley AI | 2026

- Designed an AI-powered job platform that helps users discover relevant job opportunities and optimize their resumes for specific roles.
- Developed user flows, wireframes, high-fidelity interfaces, and interactive prototypes for onboarding, job discovery, resume optimization, and application tracking.

Product Designer – Havenline | 2026

- Designed a safety and support application focused on helping users access assistance, document incidents, and report concerns securely.
- Created user flows, wireframes, and interactive prototypes, with particular attention to privacy, accessibility, and discreet reporting.

Web Designer – Transform African News | 2026

- Designed a news website focused on presenting African news, articles, and current affairs in an organized and accessible format.
- Developed website layouts and responsive interfaces to improve content presentation and navigation.

Web Designer – Diamond Throne Lifestyle | 2026

- Designed a lifestyle and hospitality website covering restaurant, bar, lounge, events, and other hospitality services.
- Developed website layouts and integrated e-commerce functionality to support product listings, online orders, and customer interactions.

Web Designer – Orthobyrusso.com | 2026

- Built a professional medical website with appointment booking flows, service pages and responsive layouts, balancing trust, clarity and ease of use.
- Applied on-page SEO to improve discoverability.

UI/UX Designer – Moonlight Livestream | 2025

- Designed mobile and web interfaces, user flows, wireframes, interactive prototypes and a design system for a livestreaming platform.
- Worked closely with developers to hand off designs and improve user engagement and usability.

Product Designer – GraceHub | 2025

- Designed a faith-based mobile application focused on devotional content and church-related activities.
- Developed wireframes, user flows, and interface designs to organize spiritual resources and improve access to relevant features.

Product Designer – 1ST AID | 2024

- Redesigned a mobile first-aid application to improve access to emergency assistance, educational resources, and essential first-aid information.
- Designed user flows, wireframes, interactive prototypes, and interfaces for emergency assistance, CPR and AED lessons, quizzes, and nearby help.

OTHER EXPERIENCE

AI Generalist Trainer – Outlier & Turing Projects | 2026

- Evaluated AI responses for accuracy, reasoning quality and instruction-following across multiple projects.
- Contributed to RLHF, prompt engineering and multimodal quality review, working to strict quality guidelines and deadlines.
