PROFESSIONAL SUMMARY

Senior Product & Design Systems Designer with 6+ years of experience designing mobile, web, and SaaS products across healthcare, fintech, and enterprise workflows. Created Labayh's multi-product design system from scratch; after the redesign and design system launched, consultation volume grew from 30-35M to 100M+ minutes across the Middle East. Applies WCAG accessibility standards and Figma MCP and Claude Code prototyping to ship consistent products faster.

WORK EXPERIENCE

Senior Product & Design Systems Designer
Labayh | Oct 2021 - Nov 2026

- Created the design system from scratch for the Labayh app, Nafas app, Labayh website, and Labe admin dashboards, owning its design tokens, 80+ accessible components, and documentation across iOS, Android, and web.
- Redesigned core consultation flows within a 5-person design team; total consultation minutes grew from 30-35M to 100M+ across Saudi Arabia and the Middle East after the new design and UX improvements shipped.
- Improved UI consistency by about 80%, measured in testing with closed users and team members, through structured Figma component libraries, token documentation, and bi-weekly reviews with engineering squads.
- Redesigned onboarding, booking, and live consultation journeys from usability audits, improving booking completion by 45% over the previous version in testing with a closed user group.
- Used Figma MCP and Claude Code to generate interactive prototypes for rapid design exploration, cutting early-stage validation from days to hours.

Product & UI/UX Designer (Contract)
Centrally | Oct 2022 - Apr 2023

- Audited complex corporate workflow journeys to find usability bottlenecks, then redesigned core task flows for clarity, hierarchy, and operational speed.
- Partnered with PMs and developers to turn business requirements into user flows, wireframes, and interactive prototypes, reducing multi-step workflow complexity and navigation friction across core enterprise tasks.

UI/UX Designer
JED Lab | Nov 2019 - Mar 2020

- Designed user flows, wireframes, and high-fidelity interfaces for two digital products, simplifying multi-step interactions through user-centered design principles and iterative stakeholder reviews.

UI Designer
Almach Labs | Jun 2019 - Dec 2019

- Delivered responsive mobile and web interfaces across early-stage product initiatives, establishing consistent visual patterns and reusable UI components.

SKILLS

Product Design & UX: Product Design, UI Design, UX Design, User Flows, User Journeys, Information Architecture, Wireframing, Interactive Prototyping, Usability Audits, Usability Testing, Responsive Design, Mobile App Design (iOS, Android), Web App Design, SaaS and Admin Dashboards

Design Systems & Accessibility: Design Systems, Design Tokens, Component Libraries, Component Variants, Design Documentation, Design Governance, Accessibility, WCAG, Color Contrast, Accessibility Audits, Design-to-Code QA

Tools & AI Prototyping: Figma, Figma Variables, Auto Layout, Dev Mode, Figma MCP, Claude Code, AI-Assisted Prototyping, Mobbin

Collaboration, Domains & Languages: Cross-Functional Collaboration (Saudi Arabia, US, Canada, India), Healthcare, Fintech, SaaS, Education, Travel, English

EDUCATION

Bachelor of Arts (BA), Art History, Criticism and Conservation
Chhatak Govt. College | Jan 2021 - Jan 2025

CERTIFICATIONS

Foundations of User Experience (UX) Design
Google (via Coursera) | Jul 2026
