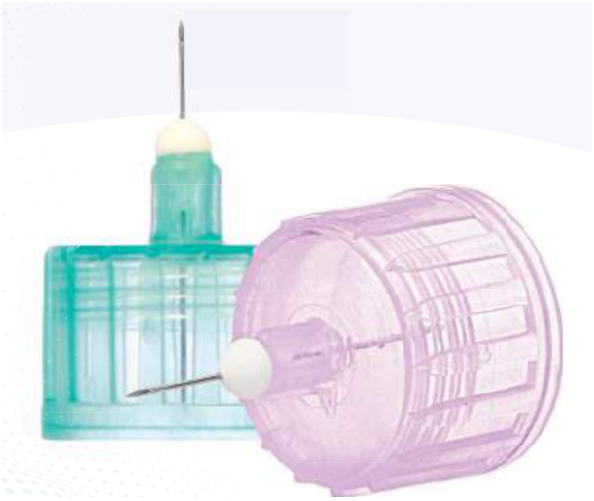
Dispo Van Insulin Pen Needles



Screw-on pen needles for compatible insulin pen devices. Thin-wall construction provides a larger internal flow channel.

Materials and features

Sterilised using ethylene oxide; siliconised needle.

Published specifications

Gauge	Length	Presentation
31G	5 mm	Pouches of 5; boxes of 100
32G	4 mm	Pouches of 5; boxes of 100

Enquiries: admin@beaarsmedical.com

Dispo Van Insulin Syringes

Insulin syringe with an integrated fine needle and a graduated unit scale. Low-dead-space construction limits residual fluid.

Materials and features

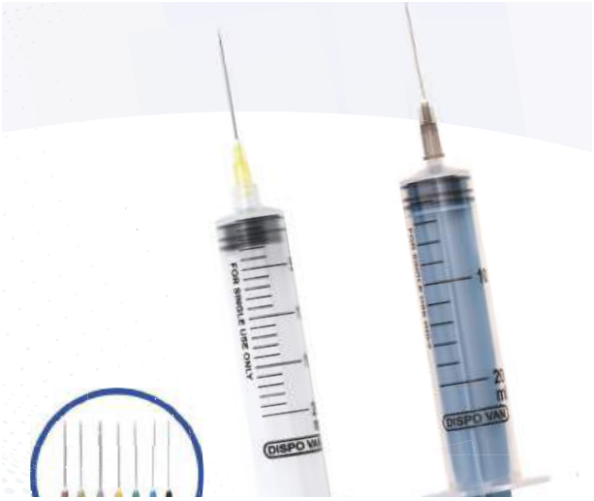
U-40 and U-100 presentations; unit packs and multi-packs.

Published specifications

Parameter	Published options
Capacity	0.5 mL and 1 mL
Scale	U-40 and U-100; varies by configuration
Needle	29G, 30G and 31G; varies by configuration
Pack presentation	Individual unit packs; multi-packs of 10

Enquiries: admin@beaarsmedical.com

Dispo Van Single-use Syringes



Three-part disposable syringe with a graduated barrel, plunger and gasket. The range includes luer-mount and luer-lock configurations.

Materials and features

Polypropylene construction; supplied with or without a needle depending on the variant.

Published specifications

Capacity	Connection / configuration
1 mL (TB)	Central nozzle; luer mount / luer lock
2, 3 and 5 mL	Central nozzle; luer mount / luer lock
10 and 20 mL	Eccentric luer mount or central luer lock
50 mL	Eccentric luer mount or central luer lock; without needle

Enquiries: admin@beaarsmedical.com

Dispojekt Safety Syringe and Needle

Single-use syringe and needle system with a translucent sharp-injury-prevention shield. The shield covers the needle after use.

Materials and features

Single-handed shield operation; audible lock confirmation.

Published specifications

Capacity	Connection
2 mL	Luer mount
3 mL	Luer mount
5 mL	Luer mount

Enquiries: admin@beaarsmedical.com

Kojak Selinge Auto-disable Syringes

Auto-disable syringe with a ring-and-lock mechanism intended to prevent reuse after administration. Immunisation and curative versions are listed.

Materials and features

Fixed-needle and detachable-needle configurations depend on the product variant.

Published specifications

Range	Published capacities
Immunisation	0.1, 0.2, 0.25, 0.3, 0.5 and 1 mL
Curative	2, 3, 5, 10 and 20 mL

Enquiries: admin@beaarsmedical.com

Technocut Surgical Blades

Surgical blade range in carbon steel, high-carbon stainless steel and premium Swiss stainless steel. Blade patterns correspond to small or large handle fittings.

Materials and features

Foil-packed blades; gamma sterilisation stated by the manufacturer.

Published specifications

Handle fitting	Blade patterns
No. 3 / small	10, 10A, 11, 12, 12D, 13, 15, 15C
No. 4 / large	18, 19, 20, 21, 22, 23, 24, 25
Additional patterns	Miniature, podiatry and stitch-cutter configurations listed in source

Enquiries: admin@beaarsmedical.com

Technocut Surgical Scalpels

Pre-assembled surgical scalpels with stainless-steel blades, ergonomic handles and removable protective sheaths.

Materials and features

Individual peel-open blister presentation; ethylene-oxide sterilisation.

Published specifications

Fitting group	Blade patterns
Small	10, 11, 12, 12D, 15, 15C
Large	20, 21, 22, 23, 24, 25

Enquiries: admin@beaarsmedical.com

Unolok Single-use Syringes

Disposable syringe range with luer-lock options for a secure syringe-to-needle connection. Clear barrels carry dose graduations.

Materials and features

Siliconised piston; versions with and without needles.

Published specifications

Capacity	Published range
1 mL (TB)	Luer mount / luer lock, central nozzle
2, 3 and 5 mL	Central nozzle
10 and 20 mL	Eccentric luer mount / central luer lock
50 mL	Without needle
