Independent accuracy checks | source note

The following note is retained from the supplied Quest answer key. It records checks claimed by that source, not a fresh audit of this merged key. Q225 and its explanation have been updated to match the previously corrected question booklet (CROWN / EAT, D (N), CROW / NEAT).

Verified each new A-E answer against its final options. The eight hidden-word sentences were screened for alternatives at every adjacent word boundary and every 1+3, 2+2 and 3+1 split. All five options were tested at every insertion position in each three-letter missing-word problem. Each letter in every original move-one-letter pair was removed and inserted at every possible position in the second word; each puzzle has one valid resulting word pair in the dictionaries used. British English spellings were reviewed.

The additional set contains 20 vocabulary and 20 verbal reasoning questions, consecutively numbered Q186-225. This answer key covers only these new questions; it does not certify the accuracy of the original Q1-185.
