# IDA BIANKA MATUS

ARCHITECT ♦ 2/3D GRAPHIC ♦ ARTIST

I am an architect, but today I mainly deal with artistic, functional and computer graphics. Furthermore, I draw and paint.

Initially, I tied my life to architecture. But then I was already captured by graphics and the capabilities of graphics programs. For many years now, I have been dealing with 2D and 3D advertising graphics. I design furniture and advertising displays for well-known brands. I also gained experience in the press and internet advertising.

After hours, I am fulfilling myself in various fields of art. I design interiors, I draw and paint wallpapers and pictures. DIY is definitely my thing.

My passion for creating wallpapers was born by chance while I was designing an interior for one of my clients. To my surprise, I enjoy searching, recreating and composing floral motifs so much. Each wallpaper tells a story of details. First, I draw each element. Manual drawing is demanding, but pays off. I try different painting techniques and choose the one that best harmonizes with the component. Flora and fauna inspire me. Everywhere, I am seeking motifs - from bold to subtle, from the saturation of colours, through a delicate play of details. Depending on the mood, I compose wallpapers for both modern and stylish interiors.

I have been immersed in art since childhood, it has a profound impact on my aesthetics and perception of the world. My mother Wanda Matus was a designer of artistic ceramics in the world-famous Zakłady Ceramiki in Bolesławiec. At home, we often talked about art, we were surrounded by it, what was and is natural for me.

I am currently collaborating with Feather from Finland, Liandpra from Italy and MS Design from Poland.

Interior design: Iwona Limach-Svensson

# Wild Flowers

Grey wild flower wallpaper mural

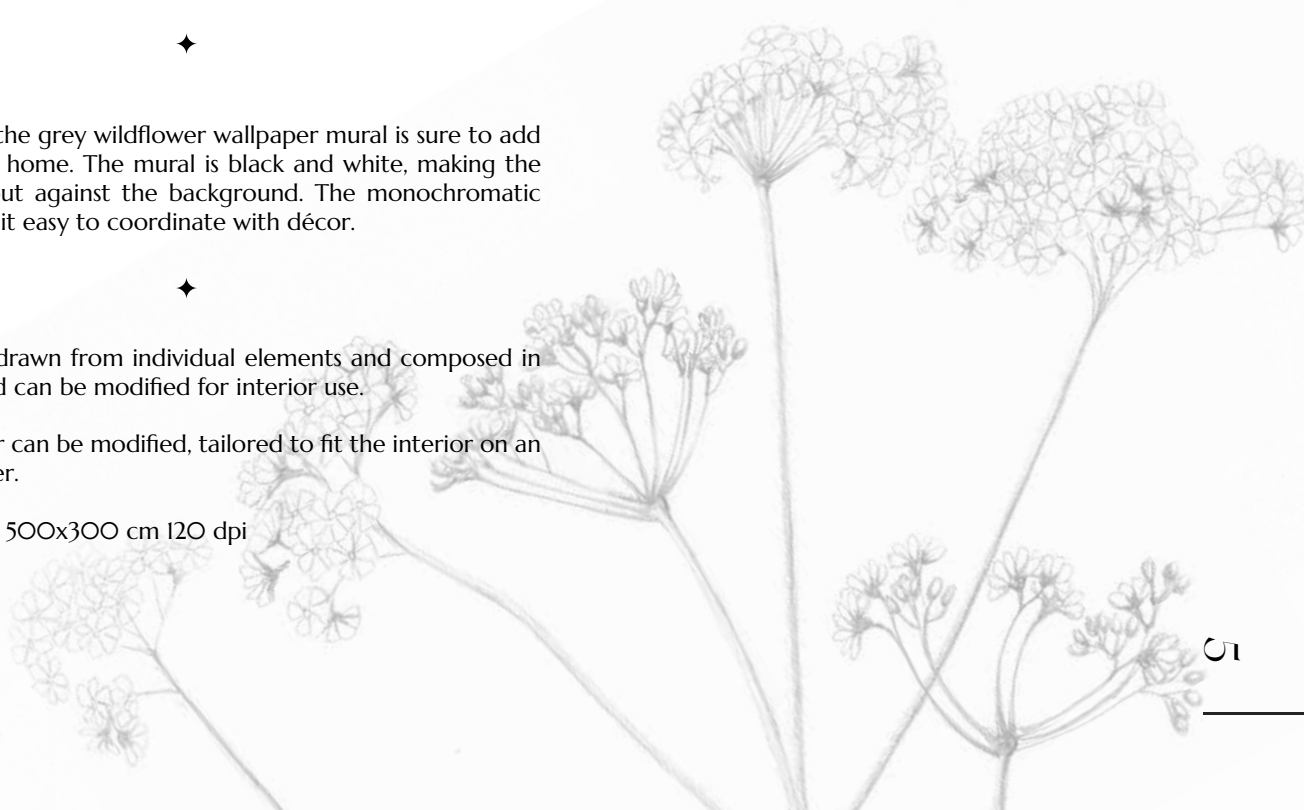

Eye-catching, the grey wildflower wallpaper mural is sure to add beauty to any home. The mural is black and white, making the petals stand out against the background. The monochromatic palette makes it easy to coordinate with décor.

Pattern hand-drawn from individual elements and composed in photoshop and can be modified for interior use.

Each wallpaper can be modified, tailored to fit the interior on an individual order.

# Concrete Flowers

Grey & white concrete floral wallpaper mural

For those chasing a modern and unique look, the grey & white concrete flower mural wallpaper is an excellent choice. The scene is a modeled, concrete-inspired backdrop with minimalistic flowers in the forefront. The flowers are drawn in a simplistic and tasteful style.

Pattern hand-drawn from individual elements and composed in photoshop and can be modified for interior use.

Each wallpaper can be modified, tailored to fit the interior on an individual order.

Wallpaper size 500x300 cm 120 dpi

# Palmy Freedom

Palm leaves on a black wall

A dark interior does not take away from the character, as you can see it can emphasise a central place in the interior. The dark background enhances the light dried palm leaves, which wonderfully accentuate the natural colours.

The pattern is hand-painted in its entirety like a painting and can be reproduced to larger sizes.

Each wallpaper can be modified to fit your interior on an individual order.

Wallpaper size 500x300 cm 120 dpi

# Greenhouse

Botanical garden

Italy is loved by everyone!!! With this wallpaper you can bring the Italian style and rich garden into your own interior. The bright interior, ornaments and glazing are the backdrop for the rich flora. Centuries-old class can come to your home and give class to your interior.

The pattern is hand-painted in its entirety like a painting and can be reproduced to larger sizes.

Each wallpaper can be modified to fit your interior on an individual order.

Wallpaper size 500x300 cm 120 dpi

# Stunning Melancholy

Palms behind smoke glass

An unusual wallpaper that will create the atmosphere of a garden behind glass. The blurred leaves give the impression of several planes, dark and sharp are on the front and light and blurred are in the distance of the greenhouse.

The pattern is hand-painted in its entirety like a painting and can be reproduced to larger sizes.

Each wallpaper can be modified to fit your interior on an individual order.

Wallpaper size 500x300 cm 120 dpi

# Humming Jungle

Grey concrete mural with starlings and white hummingbirds

The rawness of the concrete, the linear sterlites lend a modern simple classic and the flying white hummingbirds add character. The simplicity of the colour but rich character in the detailing will work well in a modern minimalist interior.

Pattern hand-drawn from individual elements and composed in photoshop and can be modified for interior use.

Each wallpaper can be modified, tailored to fit the interior on an individual order.

Wallpaper size 500x300 cm 120 dpi
