POWER OUTPUT

# 530-550W Mono Black Half Cut

Half cut cell technology can reduce the internal power loss and improve component overall power. Excellent heat dissipation avoids hot spot production

Designed for high voltage systems of up to 1500 VDC, increasing the string length of solar systems and saving on BoS costs

Microcrack resistant double glass structure enhances reliability, triple EL tested for high quality control

All the modules are sorted and packaged by amperage, reducing mismatch losses and maximising system output

Advanced surface treatment, lower surface reflection and multi-BB cell design can reduce the series resistance

Positive tolerance 0/+5w guaranteed

- Max Module Efficiency: 21.3%
- No. of Cells: 144 (2 x 72), 182mm
- Weight: 28.6 kg
- Dimensions: 2279mm x 1134mm x 30/35mm
- Monocrystalline 182x182mm
