

# Anton Autushenka

UX/UI Designer

8

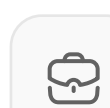

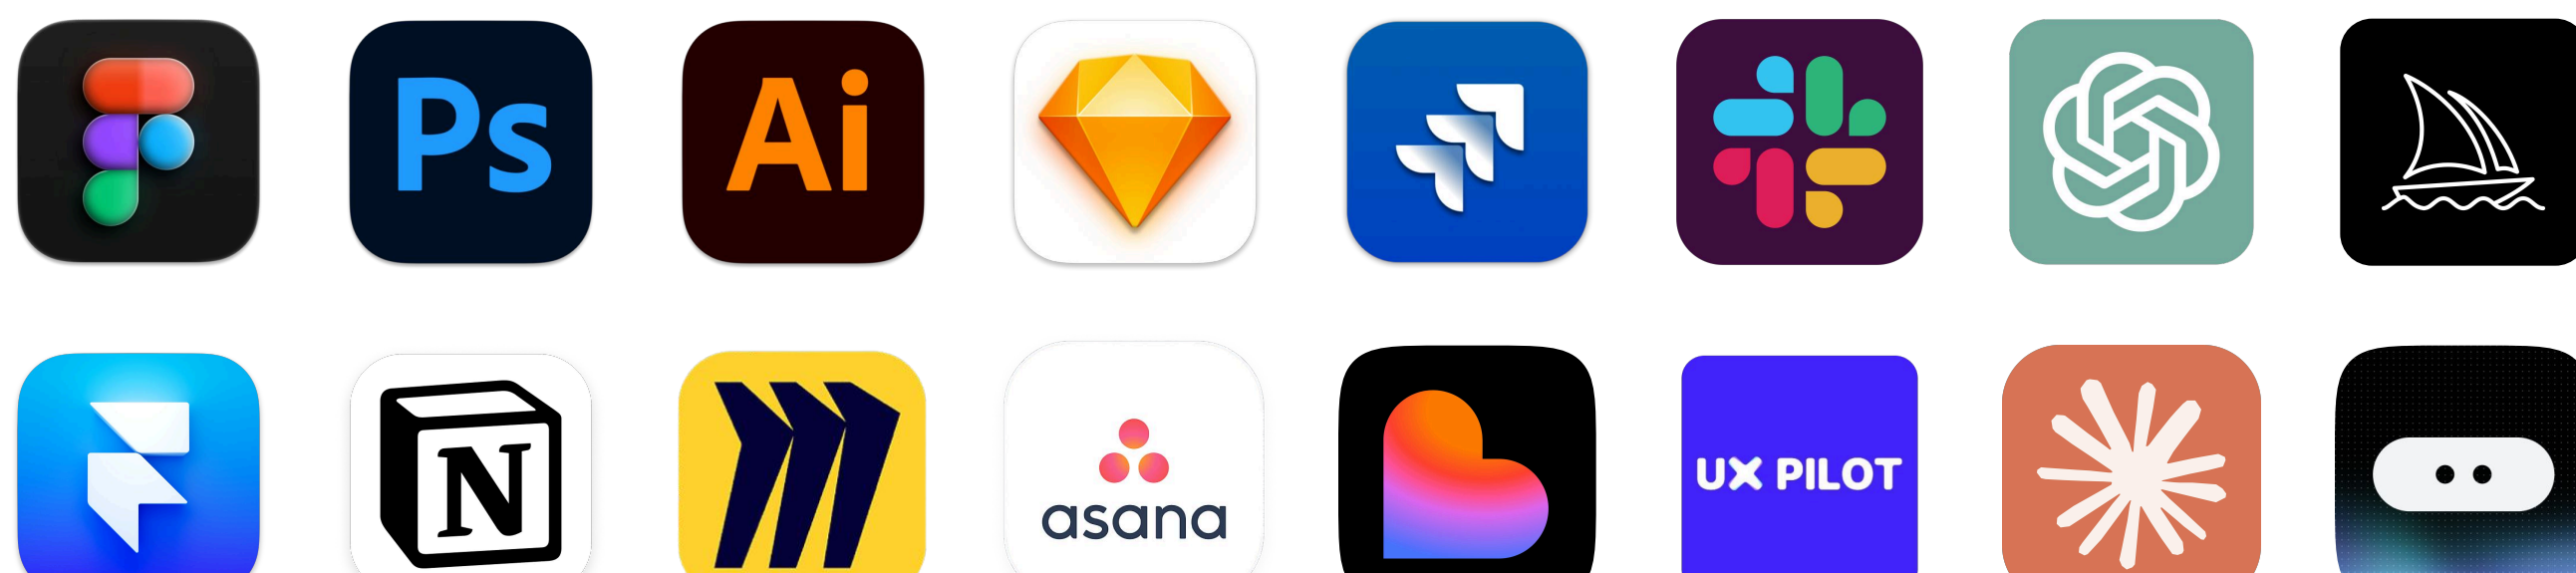

## About Me

UX/UI Designer with 4 years of experience designing digital products across web and mobile - from SaaS platforms and CRM systems to e-commerce and fintech tools. I focus on turning complex flows into interfaces that are clear, fast to use, and easy to maintain at scale. I work efficiently with AI-assisted workflows for research, prototyping, and iteration, without losing attention to detail in the final product.

## Tools

## Work Experience

Every project is a step forward – from concept to pixel-perfect design that creates real impact.

### UX/UI Designer

Rapid Dev · Full-time

📅 Nov 2022 - Present

📍 Based in Warsaw, Poland

- Designed mobile and web products including financial platforms, CRM systems, marketplaces, and SaaS solutions using AI-assisted design workflows.
- Leveraged AI tools such as ChatGPT, Claude, UX Pilot, and Figma AI to accelerate research synthesis, wireframing, UX ideation, and interface exploration.
- Built a component-based design system in Figma that reduced design-to-dev handoff time and kept UI consistent across a growing set of platforms.
- Redesigned core user flows across financial and CRM platforms, simplifying multi-step processes and reducing decision friction for end users.
- Used AI-assisted workflows to cut research and wireframing time, allowing faster concept validation without sacrificing design quality.
- Collaborated closely with developers using structured handoff processes and component-based design approaches.

### UX/UI Designer

Freelance

📅 Nov 2020 - Present

📍 Based in Warsaw, Poland

- Delivered end-to-end UX/UI solutions for startups and international clients across SaaS, e-commerce, and service-based industries.
- Designed mobile applications, landing pages, dashboards, and brand identity systems aligned with business goals and user needs.
- Validated product ideas through clickable prototypes before development started, reducing costly revisions during the build phase.
- Built modern visual systems and marketing assets that strengthened brand consistency across digital platforms.
- Delivered design work for multiple international clients in parallel, consistently meeting deadlines without compromising quality.

## Education

From understanding people and markets to designing intuitive digital products – education that shaped both logic and empathy in design.

### IT-Academy - Web-design and design of mobile interfaces

UX/UI Designer

📅 2022

### IT-Academy - UX/UI Tools

UX/UI Designer

📅 2022

### Belarussian State University - Faculty of Economics

Economist-analyst

📅 2017-2021

## Professional Skills

Blending art, logic, and empathy – creating thoughtful digital experiences where every detail serves the user.

### Skills

- ✓ UX Design
- ✓ UI Design
- ✓ Mobile App Design (iOS & Android)
- ✓ Product Design
- ✓ User Flows & Information Architecture
- ✓ Wireframing & Prototyping
- ✓ Design Systems
- ✓ Responsive Web Design
- ✓ Usability Testing
- ✓ Accessibility (WCAG)
- ✓ Interaction Design
- ✓ Visual Design & Typography
- ✓ Cross-functional Collaboration
- ✓ AI-assisted Design Workflows

## Languages

Bridging ideas and people through languages – fostering understanding and collaboration across cultures.
