

## Smart Border Solutions

SomapaIT's flagship initiative, Smart Border Solutions, is the next generation of border control. Its innovative modular design offers customisable solutions for sea, land, and air borders, forming a multi-layered security and facilitation strategy.

- 30 years of experience in the border management industry - screening over 100m travellers annually
- Fully customisable and scalable to meet the unique and specific priorities of the country
- Complete and end-to-end Border Management capability
- Interactive Advance Passenger Information System (iAPIS) creating multi-layered border controls
- Sophisticated profiling through traveller data and Passenger Name Record (PNR)
- Leading electronic Travel Approval and Visa systems
- Ongoing expertise, training and support for seamless design, implementation and maintenance
- Deployable under flexible funding models to suit any country-including build-operate-transfer frameworks

We understand the unique challenges and opportunities of managing national borders. Let us help you enhance security, increase efficiency, and unlock your borders' economic potential.

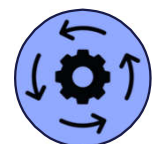

100 Million travellers screened every year

ISO27001 Certification – information security management

No obligation collaboration – designing customised solutions

Deliverable under Build Operate Transfer

30 years experience & expertise
