Myth of
YGGDRASIL
Viking Adventures

Escape a Viking village and
set sail beneath the northern lights
to save Yggdrasil, the World Tree

A 30-minute free-roam VR adventure for
families, friends and fellow travellers

Shared group
experience

Indoor - family
friendly

Walk-Ins
welcome

The World Tree is dying - can you restore the balance?

The worlds are falling out of balance, and something ancient is gnawing at the roots of Yggdrasil.

Guided by Ratatoskr, a mythical squirrel, and the power of the runes, your group must journey beneath the northern lights to face Nidhogg. Not to destroy him, but to restore the balance he protects.

Together, you can bring Yggdrasil back to life

Walk together through a Viking world brought to life

Use your hands to pick up rune stones and walk freely through the landscape on your own feet, exploring more than ten unique locations in 30 minutes.

- ▶ Choose your rune stone and discover the power you hold together
- ▶ Sail into Niflheim - venture beyond the living world into a frozen underworld of mist and fate
- ▶ Face Nidhogg - stand before the ancient serpent gnawing at the roots

Family friendly - fun and accessible for ages 10 and up

Authentic Norwegian Viking heritage

At the heart of Norse mythology stands Yggdrasil, the World Tree, connecting gods, creatures and the many worlds of the old North.

In Myth of Yggdrasil, every detail, from boat carvings and rune inscriptions to clothing, sacred figures and longhouse architecture, has been shaped by historical research and Viking expertise.

To achieve this, our creative team worked closely with leading Viking historians from NTNU, Norwegian University of Science and Technology.

Their knowledge has helped shape both the visual world and the story itself, creating a faithful journey into the myths, landscapes and cultural heritage of the Viking Age.
