SD-410 · CORK

Toasted Cork

Expanded cork baked in its own resin: dark, warm, soft to the touch and quietly absorbent.

CODE	SD-410
FAMILY	Cork
FINISH	Raw, or clear matt sealer
THICKNESS	10, 20 or 40 mm
FORMATS	1000 × 500 mm boards · 300 × 300 mm tiles
REACTION TO FIRE	Euroclass E (B-s2,d0 with FR backing)
ACOUSTIC	αw 0.40 at 40 mm
COMPOSITION	Cork granules expanded with steam
CERTIFICATIONS	No added binder · bark harvested without felling
LEAD TIME	2–3 weeks

Nothing added

The granules are packed into a mould and baked with steam. The heat releases the cork's own resin, which binds the block and turns it the colour of coffee. Nothing else goes in.

Where it works

Pinboards, meeting rooms, children's spaces and any wall that needs to feel warm and soak up a little noise. At 40 mm it doubles as insulation.
