PROFFESIONAL SUMMARY

Committed UX Design major with an exceptional eye for practicality. Strongly suited in real life interactions with lots of user interview experience. Excited to grow my professional experience in a real world environment.

EDUCATION

Purdue University, West Lafayette, IN

Overall GPA: 3.84
Major GPA: 3.84
Started August 2024, Expected Graduation May 2028
Bachelor of Science (B.S.) in UX Design
Certificate in Acting: Comm Thru Performance

SKILLS

Figma Proficiency / **HTML, CSS, and JavaScript** / **Fusion 360, Blender, and Tinkercad CAD** / **Team Experience Leading Exercises in UX Projects** / **User Interview Expertise**

WORK EXPERIENCE

- **3D Modelling/Printing Business:** I 3D model and sell 3D printable props through Cults3D and advertise through YouTube and Instagram. (March 2026 - present)
- **Volunteer 3D Lab Supervisor:** I supervise all non-special material prints in the 3D Printing Club lab for two hours a week. I work with a variety of printers including Prusia and Creality brands. (Fall Semester 2025 - present)
- **Famous Franks at Cary Knight Spot:** I am an employee working front register as well as fulfilling Doordash orders. (October 2025 - present)

MAJOR PROJECTS

These projects were done within Purdue's UX Design Studio Class, working with real companies in a team setting.

Company: **Microsoft Azure Health monitor (In Progress)**

My team is creating a set of recommendations, ideas, or designs to help evolve and simplify the product's UI. The organizations cloud monitoring platform helps organizations track the health of their resources and workloads running in the cloud showing which services are healthy or unhealthy and how issues may affect other parts of a system, through graphs, timelines etc.

Company: **Richard Group Construction Contracting Firm (January 2026)**

My team worked with Richard Group in order to create a SSOT (Single Source of Truth) for them to keep track of their current and past projects. This included a display used on work tablets holding information on projects and employees and contained features for admin and non-admin capabilities.

Company: **Purdue IT/Video Express *(August 2025)***

This project was conducted in collaboration with UX professionals at Purdue IT and focused on enhancing both the Content Creator and Administrative experiences for the Video Express service, a self-recording studio open to Purdue students, faculty, and staff. It introduced a Personal Library feature, a Community feature and a generative AI tool that assists users in creating new backgrounds.

AWARDS AND HONORS

- **President's List Scholarship**
- 4x **Dean's List** Recipient
- Member of **Alpha Lambda Delta Phi Eta Sigma** Honors Society
- Lutheran High School **Outstanding Senior of the Year Award** 2024
