SIWA SALT HUB

Mined by Nature. Delivered Worldwide.

Premium salt products for industrial, infrastructure, agricultural,
and commercial markets, delivered worldwide from the salt lakes of Siwa, Egypt.

- Industrial Salt
- De-icing Rock Salt
- Water Treatment Salt
- Raw Salt
- Refined Salt
- Bulk Exports

Egypt | From the Salt Lakes of Siwa to Global Markets.

COMPANY OVERVIEW

About Siwa Salt Hub

Siwa Salt Hub is an Egyptian producer, processor, and exporter of premium salt products sourced from the unique salt deposits and lakes of Siwa Oasis one of the world's most remarkable natural salt-producing regions.

We combine responsible extraction methods, modern processing techniques, and efficient logistics to serve customers across chemical manufacturing, water treatment, agriculture, infrastructure, food processing, and commercial distribution.

Vision

> To become a leading global supplier of premium salt products recognized for quality, reliability, innovation, and sustainable resource management.

Mission

> To provide high-quality salt products and customized solutions that support industrial growth, infrastructure development, and commercial operations while creating value for customers, partners, and communities.

Responsible Extraction **Modern Processing** **Global Export**

Why Choose Siwa Salt Hub

Six reasons global buyers trust us as their preferred salt supply partner.

Premium Natural Source

Siwa Oasis salt deposits — renowned for exceptional purity and unique mineral composition.

Strategic Export Location

Direct access to Europe, Africa, the Middle East, and major international shipping routes.

Reliable Supply

Consistent production capacity with dependable year-round delivery schedules.

Customer-Focused Solutions

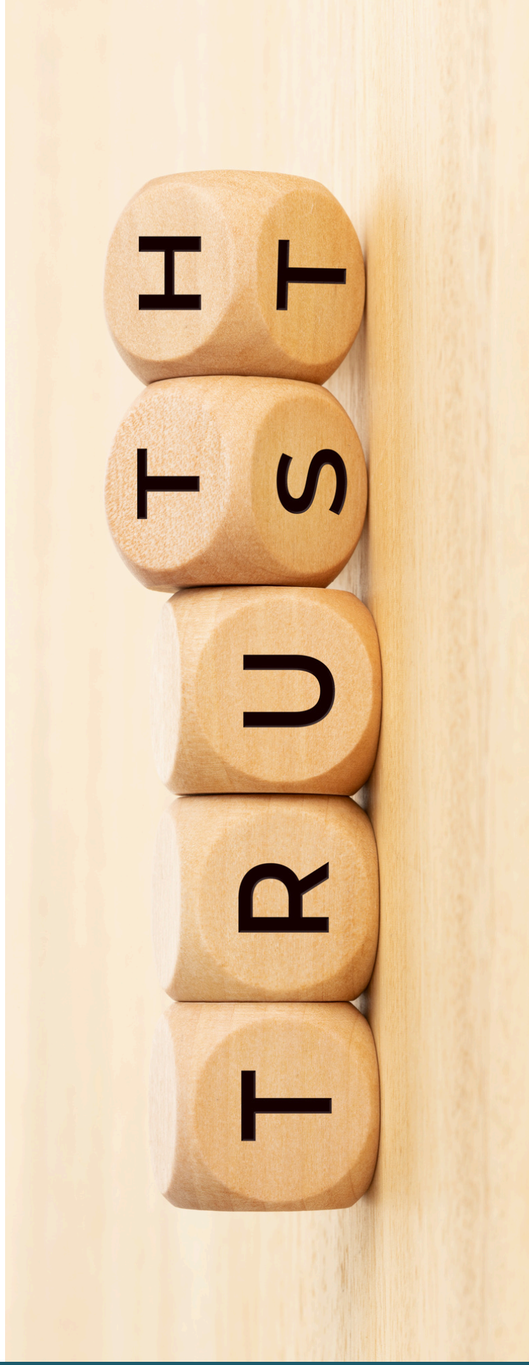

Specifications, packaging, and logistics
fully adapted to each customer's requirements.

Competitive Advantage

Natural resources + efficient operations + strategic logistics — quality without compromise.

Long-Term Partnerships

Sustainable business relationships built on transparency, reliability, and
mutual growth.

Industrial Salt

High-purity industrial salt available in multiple purity levels and grain sizes, adapted to meet the technical requirements of diverse industrial operations.

Applications

- Chemical Production
- Chlor-Alkali Industry
- Textile Manufacturing
- Detergent Production
- Water Treatment Facilities
- Industrial Processing

Key Features

- High Purity Levels
- Consistent Grain Size
- Reliable Supply Capacity
- Export Ready
- Customized Specifications Available

Available in multiple purity levels and grain sizes per customer requirements.

De-Icing Rock Salt

Performance-driven winter maintenance salt for roads, airports, and infrastructure.

Applications

- Roads & Highways
- Airports & Runways
- Municipal Infrastructure
- Industrial Facilities
- Logistics & Distribution Centers

Specifications

NaCl Content:	**97.0% – 99.5%**
Insoluble Matter:	**Low**
Granulation:	**Consistent**
Melting Performance:	**High**
Suitability:	**Municipal & Industrial**

Packaging Options

- 25 KG Bags
- 50 KG Bags
- Jumbo Bags
- Bulk Cargo

Customized packaging solutions available upon request.

Water Treatment, Refined Salt & Raw Salt

Specialized salt solutions for purification, processing, and bulk industrial supply.

WATER TREATMENT SALT

Purification & Softening

- Water Softening Systems
- Industrial Filtration Systems
- Commercial Purification Applications

• Tablets • Granules • Custom Specs

REFINED SALT

Food & Commercial Grade

- Food Processing Applications
- Commercial Use
- Industrial Processing

Produced per customer specifications

RAW SALT

Naturally Harvested • Bulk Supply

- Industrial Processing
- Bulk Export Operations
- De-Icing Applications
- Chemical Industries

Various purity levels and grain sizes available

Supporting Diverse Global Industries

From chemical production to global distribution — Siwa Salt Hub delivers across sectors.

Chemical Industry

Raw materials for industrial production processes

Infrastructure & Municipalities

De-icing solutions for public safety and winter maintenance

Agriculture & Livestock

Salt and mineral products for agricultural operations

Water Treatment

Commercial and industrial water purification systems

Food Processing

Quality salt for manufacturing and processing applications

Distribution & Trading

Bulk supply for importers, distributors, and traders worldwide

Quality, Packaging & Logistics

Quality Commitment

QUALITY CONTROL STAGES

Source Inspection → Processing Control → Product Testing → Packaging Verification → Shipment Monitoring

LABORATORY VERIFICATION

- NaCl Content
- Moisture Levels
- Insoluble Matter
- Mineral Composition
- Grain Size Distribution
- pH Testing

Technical specifications and lab reports available upon request.

Packaging Solutions

25 KG Bag

50 KG Bag

Jumbo Bag
500 KG – 1,500 KG

Bulk Shipment

Custom Packaging

Logistics & Export

COMMERCIAL TERMS

FOB Egyptian Ports | CFR | CIF

Customized delivery solutions available

EXPORT SUPPORT

- ✔ Containerized Shipments
- ✔ Bulk Cargo Solutions
- ✔ International Documentation
- ✔ Customs Coordination
- ✔ Worldwide Delivery Arrangements

Product Analysis & Technical Specifications

Laboratory-verified data available upon request.

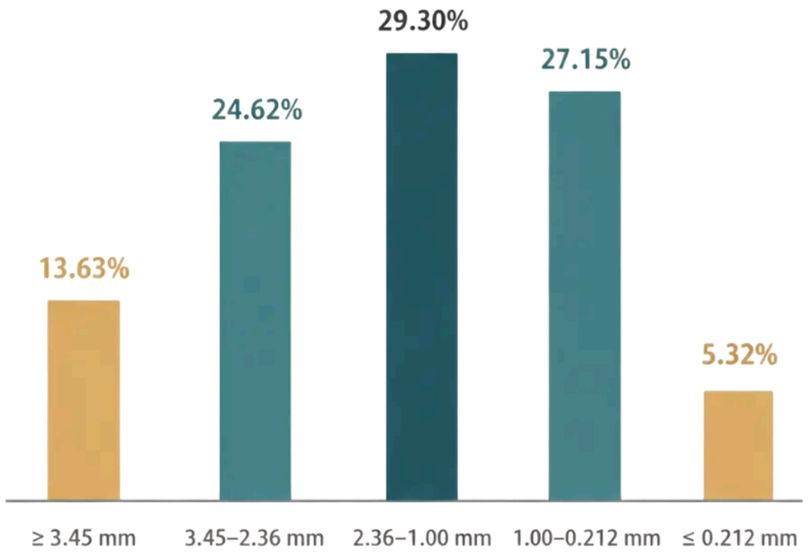

Physical Properties

Color	**Waxy White**
Solubility	**Soluble in Cold Water**
Odor	**Odorless**
Crystallization	**Fully Crystallized**
pH (10% Solution)	**7**

Chemical Composition

NaCl (Dry Basis):	98.98%
NaCl (Wet Basis):	97.00%
Moisture:	2.00%
Sulfate Ions:	0.288%
Magnesium Ions:	0.140%
Bicarbonate Ions:	0.098%
Calcium Ions:	0.080%
Insoluble Matter:	0.09%

Particle Size Distribution

Particle size % by weight

Technical specifications and full laboratory reports available upon request · info@siwasalthub.com

Sustainability & Global Reach

RESPONSIBLE RESOURCE MANAGEMENT

Responsible Extraction

Sustainable harvesting practices that protect the Siwa ecosystem

Efficient Resource Use

Minimizing waste across every stage of production and processing

Environmental Awareness

Operating with continuous regard for the surrounding natural environment

Long-Term Sustainability

Building operations designed to last and improve over generations

Continuous Improvement

Ongoing refinement of processes, efficiency, and environmental performance

Our goal is to become a trusted global partner for premium salt products and customized supply solutions.
