The Joint Building Contracts Committee® - NPC Small and Simple Works Contract Edition 1.0 – May 2020

This JBCC® Small and Simple Works Contract is intended for alterations, renovations and additions to existing buildings, or new building works that are not more than three storeys in height and where no sophisticated building systems are used nor complex services are to be installed

Characteristics

- The contract is between the employer and the contractor. The employer will administer the contractual relationship with the contractor, but the employer may appoint an agent to perform such task prior to and during the execution of the works on the employer's behalf. Where an agent is thus appointed in this contract, the agent will act to the extent required in terms of the rights and obligations assigned to the employer
- The contractor and his subcontractors must complete the works within an agreed construction period
- The employer may appoint direct contractors to carry out identified work
- The appointment of nominated or selected subcontractors will not apply
- The contract is considered not suitable where the construction period is longer nine months or the contract value exceeds five million Rand (R5 000 000.00)
- Certificate forms and support documents for use in the administration of this contract are available as free download from the JBCC's website

Warning!

- Persons entering into or preparing construction contracts using the JBCC® suite of contracts and support documents are warned of the dangers inherent in modifying any part of it
- Experience has shown that changes drafted by others, including members of the building professions, often have unintended results that may be prejudicial to either, or both parties

JBCC®

The Joint Building Contracts Committee® NPC (JBCC®) is representative of building owners and developers, professional consultants, general and specialist contractors and construction contract law practitioners who contribute their knowledge and experience to the compilation of the JBCC® documents in the interests of standardisation and good practice to allocate risk to the party best able to deal with such risk

The JBCC® does not sell directly to users. Vendors of JBCC® documents are listed on www.jbcc.co.za as well as free downloads, answers to frequently asked questions and information about training courses
