Why AI25.

DIRECTED, NOT PROMPTED Every frame is set by people with ten years on sets and in edit suites. The model executes a locked look, it does not invent one.	RIGHTS IN WRITING Full commercial rights, sourced references, PLN 5,000,000 professional indemnity and EU Code of Practice transparency, all before you sign.	A FOUNDER ON EVERY JOB From the first treatment to the final grade. No account layer, no handover to a junior once the contract is signed.	FIXED ESTIMATE, FAST START A treatment and a number inside 48 hours. Scope, revision rounds and timeline agreed before production begins.
--	---	--	---

Top row: brands the studio or its members have delivered work for. Bottom row: platforms that feature or license the team's work; they are not clients. Trademarks and logos are the property of their respective owners and appear solely to identify brands associated with projects involving AI25.Studio, members of its team and/or production or agency partners. Their inclusion does not imply endorsement, sponsorship, affiliation or an ongoing client relationship.

BRING US THE **HARD** ONES.

Commercials, brand films, social, product video, 3D and original IP.
The stranger the brief, the more we want it.

AI-GENERATED STILL - MADE IN HOUSE

EVERYTHING A CAMPAIGN NEEDS, **UNDER ONE ROOF**

One crew across all four stages. You brief once, and the people who set the look are the people who deliver the master.

01 / CREATIVE CONCEPT AND DIRECTION • Campaign concept and strategy • Script and treatment writing • Storyboards and previz • Casting, real and AI talent • Wardrobe, set and character design • Art direction and visual bible • Shot breakdown and budgeting	02 / PRODUCTION SHOOT AND GENERATE • Live-action shoot days, EU crews • Green and blue screen plates • Location scouting and permits • Talent releases and clearances • AI generation under supervision • Custom LoRA training and fine-tuning • Scheduling and on-set producing	03 / 3D AND VFX BUILT, NOT GUESSED • Product visualisation and lookdev • Character modelling and animation • Simulation, FX and destruction • Environments and set extension • Live-action VFX and clean-up • Motion design and titles • Multi-layer compositing	04 / POST AND DELIVERY FINISHED, NOT EXPORTED • Offline and online editorial • Colour grading to broadcast spec • Sound design, mixing, music • Voice-over, ADR, AI voice • Versioning, cutdowns, localisation • Broadcast, DCP and platform masters • Subtitles and language adaptation
---	---	---	---

■ **Three ways to run a job with us** ALL THREE END WITH THE SAME MASTERS AND THE SAME RIGHTS

01 / SUPERVISED You sit with us In Warsaw or on a live session. You see the cut, the grade and the generations as they happen, and direct them.	02 / MILESTONE You approve at gates The default. Treatment, styleframes, first cut, final. Nothing moves past a gate until you sign it off. Two revision rounds as standard.	03 / WHITE-LABEL You keep the client Under your name, on your briefs, in your cleared tools. NDA first, files clean, no credit unless you offer it.
---	--	---

RIGHTS, AND WHO CARRIES THE RISK

Most AI work looks fine until a legal team asks three questions. Where did the reference come from? Whose face is that? What does the client actually own? We built the pipeline around answering them.

HOW WE WORK

- 01

CONTROLLED REFERENCES
Every reference sourced and logged. No scraped mood boards.
- 02

DOCUMENTED AI PROCESS
Which model produced which stage, and from what. Available on request.
- 03

OUTPUT REVIEW BEFORE DELIVERY
Every frame checked for likeness, trademark and lookalike collisions.
- 04

BUILT FOR APPROVAL FLOWS
We work inside brand legal review and compliance, not around them.

WHAT YOU OWN

- 01

FULL COMMERCIAL RIGHTS TRANSFER
Complete commercial rights to the delivered work, for all agreed use.
- 02

MASTERS IN YOUR DELIVERY SPECS
Broadcast, DCP, platform and social, versioned and language-adapted.
- 03

PROCESS DOCUMENTATION ON REQUEST
Sources, references and model usage, in a form your legal team can read.
- 04

TALENT RELEASES ON FILE
Releases cover AI-derived work, with territory and term written in.

PROFESSIONAL INDEMNITY

Up to PLN 5,000,000

Per claim and in the aggregate, with Lloyd's Insurance Company S.A. through Leadenhall Insurance S.A., Warsaw.

POLICIES LHC3182263 / LHC3182288
VALID 6 JUNE 2026 - 5 JUNE 2027

WHAT THE POLICY COVERS

Unintentional IP infringement

Cover for unintentional infringement of intellectual property rights and a GDPR / cyber section.

CERTIFICATE AND POLICY WORDING AVAILABLE BEFORE SIGNING

TRANSPARENCY

EU Code of Practice

Signatory to Section 2 of the EU Code of Practice on Transparency of AI-generated Content. Voluntary commitment, not an EU certification.

LISTED AMONG THE EUROPEAN COMMISSION'S SIGNATORIES

Every line on this page is something we can put in writing before you sign.

Certificates and the full policy wording go out with the first proposal, or earlier on request. Insurance sits with the studio, not with a subcontractor.

PEOPLE FIRST, THEN THE MODEL

The pipeline is only as good as the people running it. This is the team, and the work they put their names on.

SHOT FOR REAL, BUILT AROUND IT

Casting, crew, permits and a director on the floor, booked the way any production books them. Part of the frame is photographed, part is built, and the two meet without a seam.

Green screen is not a shortcut. It is a decision about which half of the frame gets built.

01 SHOT

Actors, hands and product filmed for real, with light, lens and tracking data on the plate.

02 BUILT

Environment, set extension and atmosphere generated to the plate, not the plate cut to fit.

03 JOINED

One grade, one grain, one lens character, so the seam has nothing to show.

04 DISCLOSED

Ships with a Made with AI line and full rights transfer on delivery.
