

MISS NOTHING. SEE EVERYTHING. RESPOND INSTANTLY.

One AI command layer for security, parking, traffic, and revenue - built to turn live conditions into the next right action.

● SEE EARLIER

Unify cameras, sensors, and field activity.

● RESPOND FASTER

Route the right alert to the right operator.

● PROVE WHAT HAPPENED

Keep an auditable record after every event.

START SMALL. PROVE VALUE.

Bring us one event or one site.

We will map the coverage, configure the workflow, and show you what changes.

SCAN TO START

FROM BLIND SPOTS TO ACTION.

NXTFusion connects what you already have, adds what your site needs, and turns live conditions into one operational picture.

HOW IT WORKS

01

CONNECT

Use existing cameras and sensors.
Add NXT units only where coverage is missing.

02

UNDERSTAND

NXTFusion interprets live conditions across security, parking, traffic, and revenue.

03

ACT

Nexie routes the right alert, recommends the response, and records what happened.

WHAT OPERATORS CAN SEE

CROWD + OCCUPANCY

TRAFFIC + PARKING

SECURITY + ANOMALIES

POS + REVENUE

STADIUMS / ARENAS / PARKING / PORTS / CASINOS / DATA CENTERS / CONVENTION CENTERS

Ready to see your site differently?

Book a 20-minute site review with the NXT team.
