WEEE Compliance Statement

Components Express LLC. is a producer of certain qualifying electrical and electronic equipment Electrical and Electronic Equipment (EEE) and is therefore obligated under the **Waste Electrical and Electronic Equipment (WEEE) Regulations**.

We are fully compliant with all responsibilities as a registered member of UK government approved WEEE Compliance Scheme through Comply Direct that holds registry in England.

Components Express, LLC.'s WEEE producer registration number is #WEE/MM1588AA.

We have formally complied with WEEE Directive 2012/19/EU. We periodically review this regulation to ensure we remain fully compliant.

The UK WEEE Regulations were first introduced in 2002 with the aim of reducing the amount of EEE ending up in landfill. As per the requirements of the Regulations we finance the recovery and recycling of WEEE when it reaches the end of its life and ensure our EEE products are marked accordingly with a crossed out wheeled bin symbol. We also provide information on environmentally sound treatment of the products.

WEEE Marking:

Information for Users

The WEEE symbol on the product indicates that the product must not be disposed of with normal household waste. Instead, such marked waste equipment must be disposed of by arranging to return to a designated collection point for the recycling of waste electrical and electronic equipment. Separating and recycling this waste equipment at time of disposal will help to conserve natural resources and ensure that the equipment is recycled in a manner that protects human health and the environment. CEI offers our customers the opportunity to return products at the end of their functional lives to your local WEEE Authority Waste or Transfer Station for recycling. All qualifying products are marked with the WEEE symbol shown above. Disposal cost of any authorized product returned to the local WEEE Authority will be at the expense of the sender.
