

Client Case Study

Yering Winery
450kW Solar PV +
550KVa Genset

Need

Unreliable electricity resulting in stock losses and inability to hold events.
High consumption and demand charges resulting in high electricity costs.

Solution

140kW Solar Embedded Generation + 550kVA Bio-diesel GenSet synchronized to the Grid via our proprietary optimised system.

Savings & Benefits

Eliminated potential for power outage related stock losses.
Heavily reduced electricity bill
Ability to run event services with confidence.

Technology

395W Modules with 25-Year change out warranty

Testimonial

“Yering Station is now able to operate our production without the worry of stock being lost due to unreliable electricity, providing us with peace of mind and tens of thousands of dollars in cost savings and no disruptions to special events.”
