Product Designer with 3 years of experience creating B2B enterprise SaaS, AI, and Web3 products. Experienced in translating complex business requirements into intuitive digital experiences while collaborating closely with founders, product managers, and engineers.

Professional Experience:

Product Designer - Eth Elite (formerly The Matrix Labs) - Remote

September 2023 - Present

- Delivered product experiences across enterprise SaaS, AI, and Web3 platforms from concept to implementation.
- Owned the product design of ClearHost, partnering with founders and engineers to define MVP scope, prioritize features, and improve complex hotel management workflows.
- Worked closely with founders and engineers to prioritize MVP features while balancing user needs, business goals, and technical feasibility.
- Collaborated with developers throughout implementation, refining interactions, validating technical feasibility, and reviewing production builds.
- Created reusable UI patterns and design systems in Figma to maintain consistency across multiple products.
- Contributed to product decisions by evaluating workflows and translating business requirements into intuitive user experiences.
- Supported the growth of the design team by interviewing, onboarding, reviewing work, and providing feedback to design interns.

Selected Projects:

ClearHost - Property Management System and Channel Manager (*Professional Project*)

- Designed workflows for reservations, booking engine, room management, inventory, taxes, cancellation policies, reports, and channel management.
- Partnered with founders to prioritize MVP features and improve usability across complex operational workflows.
- Created user flows, wireframes, prototypes, and high-fidelity interfaces for an enterprise software platform.
- Worked with developers to refine interactions and ensure implementation quality.

Nextrail - (*Mentorship Capstone Project*)

[View Case Study](#)

- Led a team of 7 designers to build an AI-powered travel planning platform during a 4-month mentorship program.
- Defined the product vision and UX direction, including the AI-powered Feed2Fly trip planning experience.
- Conducted design reviews and maintained design consistency across the project.

Education:

Bachelor's Degree in Aeronautical Engineering - Hindustan Institute of Technology and Science

2017-2021

Certifications:

UX Design Mentorship - GrowthSchool

2025

Google UX Design Professional Certificate - Coursera

2024
