Product Designer / UX / UI

- Excellent computer technical skills including knowledge in collaborative software's such as Figma, Illustrator, Framer and Photoshop.
- Knowledge of industrial design practices translated to UX/Ui design which focuses entirely on the experience of the people. Research on targets and feedback is the foundation of all designs.
- Bsc Product Design degree in Maynooth university, with heavy emphasis on the ability to solve and provide solutions to various problems.
- Freelancing web designs to clients.

Education

BSC in Product Design (Marketing & Innovation), Maynooth

Learned design principles thoroughly. Created projects both of UX/UI and industrial design themes. Project based course, getting briefs from companies such as ESB Ireland. Learn skills from different programs and implemented them into both collaborative teams and individual efforts during projects.

Core skills

Intuitive	Presentation Skills	UX Research
Usability Testing	Adaptive	Collaboration / Independent
Data Driven Design	Software Knowledge (Figma, Adobe Suite, Framer, etc.)	Problem Solving
Mobile / Web Design	Visual Design	Information Architecture
Userflows	User Feedback Integration	Freelance – Client Work
Time Management	Strong Communication	Prototyping

Other

- **Volleyball Design Officer** – Was an active committee member of Maynooth University Volleyball Club. Designed all creative projects including club jerseys, clothing, promotions and others.
- **Adventist Community Service (ACS)** – Active member of ACS. Communicate with a team to ensure our service of feeding the homeless is smooth. Part of multiple departments.
- **Social President** – I'm the social president of a church. In charge of all activities and social events. In charge of creating events and communicating with the rest of the congregation about future plans.
- **3D Printing** – Proficient in FDM and SLA systems. I can 3D models solutions of problems in practical ways.
