# VITRO S1 MIA

Introducing the Vitro S1 MIA, a compact yet powerful coffee machine designed for any setting that demands up to 60 cups per day. This machine integrates the latest in coffee technology with its patented Micro-Injected Air (MIA) system, delivering barista-quality fresh milk foam and a wide range of espresso-based drinks. Ideal for a bustling smaller office looking for a premium fresh-milk coffee offering, the Vitro S1 MIA offers both functionality and ease of use, ensuring every cup is crafted to perfection.

## MACHINE FEATURES

### INNOVATIVE MIA TECHNOLOGY

Experience the future of milk foam with the Micro-Injected Air system, which creates a velvety, consistent texture by infusing air into milk at high pressures, preserving the natural taste and quality of the milk.

### EXTENSIVE BEVERAGE MENU

From rich, aromatic espressos to creamy cappuccinos and refreshing cold drinks, the Vitro S1 MIA offers versatility with its ability to handle both dairy and plant-based milks.

### USER-FRIENDLY OPERATION

An intuitive direct touch keypad makes drink selection simple and efficient, allowing for a seamless user experience.

### EFFICIENT MAINTENANCE

Features a straightforward cleaning process with automatic and manual cleaning options that ensure hygienic operations without the need for technical expertise.

## BEST FOR INDUSTRIES IN

### SMALLER ENTERPRISES

Perfect for offices or service areas with up to 15 employees, offering a premium coffee experience that enhances workplace culture.

### HEALTHCARE & EDUCATION FACILITIES

Suitable for areas in hospitals or clinics where a quick, reliable coffee solution is needed.

## WHY CHOOSE THIS MACHINE?

### ADAPTABLE TO BUSINESS NEEDS

With various accessories, consumer payment options, and functioning modes, the Vitro S1 MIA is designed to fit different operational business models efficiently.

### QUALITY AND SAFETY

Ensures the highest quality of beverages without the risks associated with traditional steam systems, featuring greater energy efficiency and safety.

### DESIGN AND ACCESSIBILITY

Compact design paired with a 4 Litre Milk fridge system that includes temperature sensors, supports easy maintenance and operation.

## MACHINE DIMENSIONS (DXWXH)

430mm x 305mm x 670mm
