INTRO

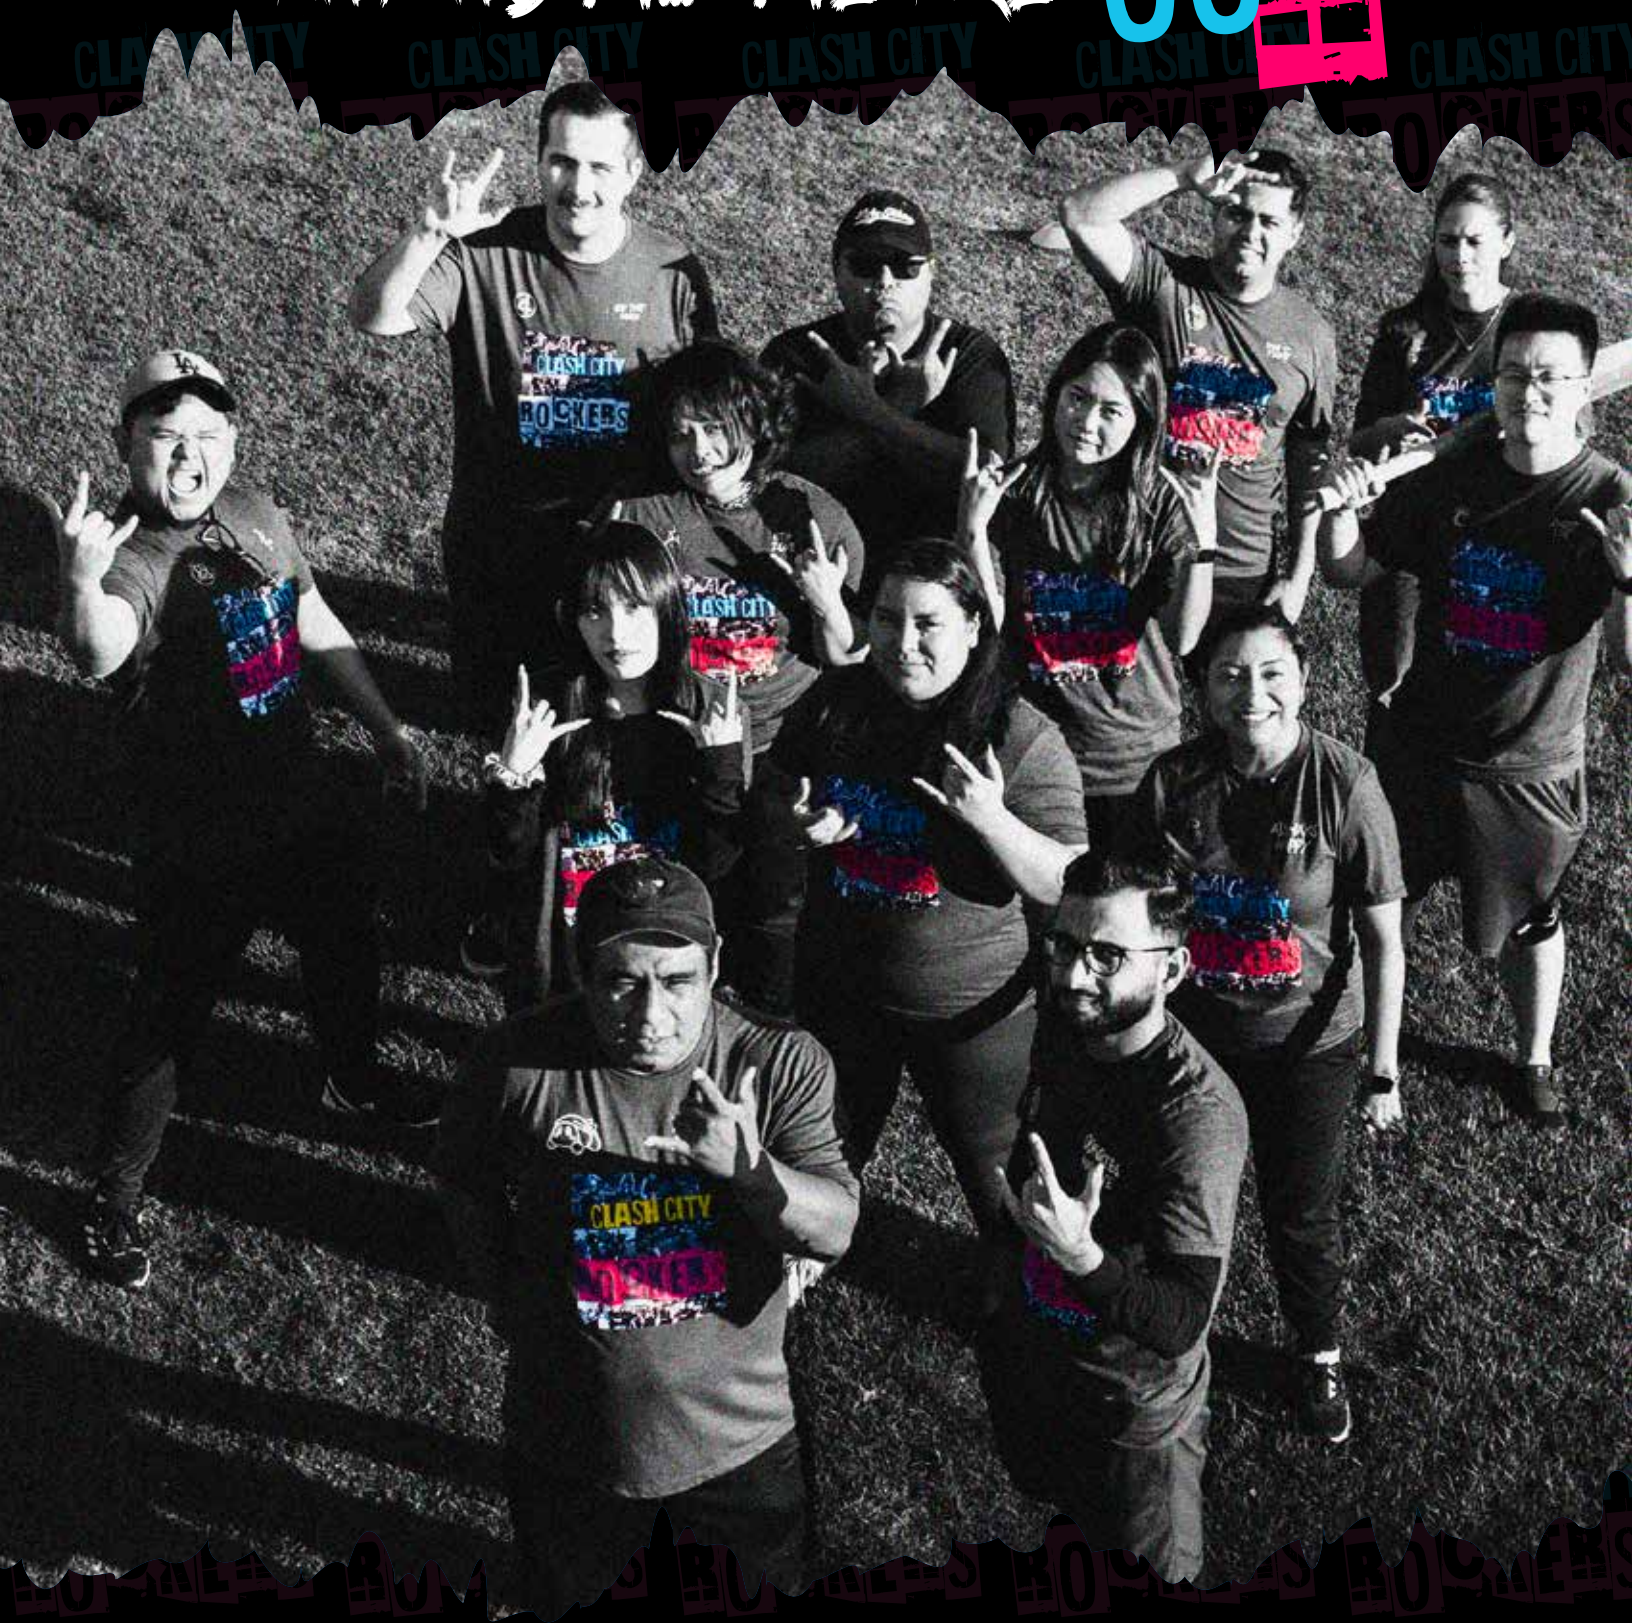

WE STARTED WITH A BANG (BANG GANG)

THEN WE BECAME OUTLAWS

AND NOW... WE ARE

BANDMATES

***“Sic parvis magna”
(greatness from small
beginnings).***

No matter how many times we change the name of our team, our values stay the exact same. In 2024, we took a loss to the Knights of Rome (0-2). However, that never stopped our drive and passion for the game. The following year, we fought valiantly and were able to tie the series (1-1). The Knights of Rome may have taken the trophy that year, but they know for a fact that they can be beaten. They didn't go home thinking that

they have any advantage over us. Quite frankly, our passion, drive, and occasional urges for shenanigans are unmatched.

Winning or losing doesn't change our spirit, it makes our bond stronger. We are thankful for every member of the CCR and all of them contribute to making the team what it is.

This group contains a wild variety of people from all walks of life. We are happy to showcase all of their different personalities in this photo book. It was fun to see every member of the team give their own personal flair to our shoot.

You have guys like DLo and Vic surprising us with their aura, then you have folks like Julie and Jenny showing off their modeling skills, and then you have rockstars like Odin and Tracey turning up the creativity. Overall, we love the diversity, range, fun, and friendship.

We are the Chiikawa Bang Bang Gang. We are the Emerald Outlaws. We are the Clash City Rockers. Whichever one you're able to remember.

****We will be changing our
name next year as well.***

FROM RIVALRY TO CO-CAPTAINS

Consistent enemies at the workplace, but reluctant teammates on the field.

"The enemy of my enemy is my friend". A tale as old as time and one that rings true with these two. They may not know much about cricket, but they sure do know that they want to win. Jaan brings strategies & ideas, while Tony makes them a reality. It's an important part of the dynamic.

In fact, this team, the games, and even this photo book were made possible because of these two. Shoutout to them on the frfr.

It all started back in 2023 during a designer park day game when Tony scoffed at the idea of Jaan actually being able to hit the ball very far. Famously exclaiming, "It's just Jaan, come in closer". Jaan would indeed go on to hit the ball, thankfully. However, Jaan has been hit by the ball more

times than he's actually hit it since. Good thing he at least understands how to pitch. Jaan's cricket highlight comes from when he eliminated 90% of the Knights of Rome back in 2024, earning him the MVP and Best Bowler trophies.

Tony's highlight comes from surviving almost the entire game alongside Des in 2025. Earning him some good runs and a memorable performance.

"Are you hardly working or working hard?"

"No, I'm hard while working".

DLo is the most unpredictable member of the team. You never know what he's going to say or do. That's why he's an essential member of the Clash City Rockers.

DLo's most remarkable performance occurred during

Game 2 of the Bang Bang Gang versus the Knights of Rome in 2024. He showed phenomenal skills with the cricket bat. Unfortunately, his potentially MVP-worthy game was cut short when Jaan, his own teammate, miscommunicated when to run.

This caused DLo to be taken out quickly so the world may never know how much he could've scored that day.

However, even still, if no one's got you, DLo's got you.

DEDICATION = RESULTS

Unlimited creativity & passion

You'll usually see Odin behind the camera. Therefore, we are happy to showcase his intuitiveness & personality here. Whether it be giving ideas or coloring outside the lines, Odin is always ready. He's a master photographer, a brilliant artist, and a Clash City Rocker.

On the cricket field, Odin continues to prove why he was named after the Allfather. He is an elite sniper when bowling. He is always determined to improve his skills. In 2025, he spent time

on his own bowling, learning, and trying to do better. These skills paid off in 2025 when he won the Best Bowler trophy. His most remarkable moment in that game was when he eliminated two knights in a row. Once again, he reminded us why he's an incredible asset to the Clash City Rockers.

He started off as a free agent in 2024, switching between the Knights of Rome & the Bang Bang Gang a myriad of times before finally landing on our team. We are glad we won the bidding war on this amazing player.

2025's last woman standing...

Taking a break from her tour alongside other artists such as BTS, Blackpink, ILLit, and countless others, Jenny Mai enters her Sophomore year as a member of our team in 2026. Last year, she made her presence known as a hubaenim (후배님) and left an indelible mark on the team's vibe.

Her performance helped us clutch the win on the frfr in the second game of the series.

Both her fellow hubaenim (후배님) and seonbaenim (선배님) are always impressed by her skill. She always makes it apparent that she is not to be underestimated.

Her friend and fellow artist Jeon Jung-kook aka Golden Maknae will hopefully one day take time to watch her play.

Her high energy and spirits are infectious. Simply put, she is highkey an important member of the team lowkey.

Tracey Muy Luna aka Ms. Luna, aka Red Dragon, aka TC Moon, aka Ms. Murdock, is an exemplary addition to the CCR aka Clash City Rockers, aka Chiikawa Bang Bang Gang, aka Emerald Outlaws. With her high energy and quick wits she has immediately locked in, clocked in, and shot called in several important areas of the CCR.

Without her, this team would not be where it is as it stands. She makes up the very foundation of what the team stands for and is a punk rocker, yes she is. It is sad that she left her former club/team,

but it was the right call if she planned to have a future in the world of cricket.

As le chef would say, "Cheers to new beginnings".

Disclaimer* - Sadly, due to creative differences, Tracey Muy Luna aka Ms. Luna, aka Red Dragon, aka TC Moon, aka Ms. Murdock, was let go and is no longer part of the association. Also... SHE IS NOT LEFT HANDED FOR GOODNESS SAKES!!!

COUPLE of MVPs

WHEN YIN MET YANG

The CCR's Power Couple

Des & Mark have a storied history with the organization. Mark was much needed in our first game against the Knights back in 2024. His score total alone was almost as much as Tony & Jaan's combined. During the second game though, Mark decided to relax and umpire instead.

Des, on the other hand, had a quiet showing in 2024, but came out guns blazing in 2025 as an Emerald Outlaw. She was the first game's iron woman and earned her MVP trophy at the end of the day. Her performance

stands among the best in the organization's history. In 2025, Mark had an interesting game plan. He came with one mindset. He didn't want to be eliminated by anyone except for himself. When he was up to bat, he bravely struck at his own wickets on purpose. Thus, eliminating himself from the game. The Knights were reminded that they have nothing on him.

On top of being MVPs, they are founding members of the organization. This is their 3rd year in a row participating and we couldn't be any happier to have them. Mark, If you're reading this, just know that Jaan is still not gonna to say hi to you. Thank you.

BULLET CLUB LEADER - PART 03

What does the duck really say?

Originating from South Vietnam, this is the origin of the first leader of the Chikawa Bang Bang Gang. However, she is a wanted criminal in a myriad of countries.*

***Not fact checked**

She made a name for herself in the pro wrestling world, specifically New Japan Pro Wrestling. In 2013, she formed the Bullet Club along with Prince Devitt. After winning several singles and tag team titles, she decided it was time to move on to new endeavors.

Since she was such a star in the squared circle, we thought she would be perfect for aiding us in cricket. Julie has continued to be resourceful. Also, as you will find out later, she helped design our logo.

Julie is motivated, strong, passionate, and a natural-born leader. She always knows what to say and what to do. Whether it be leading stretches, winning matches, or telling stories, she's important to all of us in the CCR.

TO LOVE, LAUGHTER, & CRICKET

We now pronounce you husband, wife, and Clash City Rockers

After several missed games, Juan Carlos Garcia returns to the field with a lifelong +1. Due to unfortunate circumstances, he has not been able to debut his skills. The organization is excited to see that with this new commitment he can demonstrate firsthand how important it is to keep both vows, one to his wife, and the other to his team.

Mariana, our newest addition to the team, has been keeping Juan Carlos in line

and focused on the goal. She has demonstrated exceptional vigor off the field and her performance on the field will be no different. While this may be the first year she goes up to play, she will no doubt be an important member of the team and to Carlos especially for many years to come. Congrats to them!

Not really sure what else to put here to be honest, but Juan Carlos does quite fancy dinosaurs. You've probably heard of Jurassic Park. In case you haven't, just know that the movie does have dinosaurs in it. Sorry to spoil a movie from 1993, but it had to be done. Please forgive me.

SHE'S ALWAYS HAPPY

A ROOKIE SEASON FULL OF SMILES

:) :D :) :D :)

We are lucky to welcome Mariana as a rookie to the Clash City Rockers. She aptly included the phrase “always happy” as her slogan on her jersey. Not only is she always happy, but she carries that energy through any hurdle. It’s all about smiling through the journey and having the biggest grin when the destination is reached.

Not only is she happy, but we are also happy to have her. She is determined to play to the best of her

ability at all times. She shows passion, skill, and willpower that is not easily matched by any. Please indulge as we place a very famous poem to celebrate having her in the CCR:

*“This is ten percent luck,

THE EVER POWERFUL

The biggest and most important signing in cricket history

Erick aka Big Banana, aka DK, has been scouted by the organization so he can make progress in his cricket career. Sources say that his prior team has been stagnant in terms of professional and personal development. Therefore, it was not until hands were shook and deals were signed behind-the-scenes that we can proudly announce the introduction of Erick to the Clash City Rockers.

While specifics about how this transaction occurred cannot be

stated due to all corresponding members being under an NDA, we can state with a high level of confidence that this is for the best for both teams.

We are excited to see Erick's growth and development moving forward with the Clash City Rockers. His standout moment occurred when he was still playing for the Knights of Rome. He was able to strategize and throw Jaan off his batting game. His big brain moves are essential for any team to be successful and we are glad to have him.

POLAROIDs

"You need a little jump of electrical shockers"

This year's theme was very different than the previous years. In 2024 & 2025, we were able to get brand deals with high profile companies such as Lulumelon (not to be confused with Lululemon, we don't like them), Lucille's BBQ, & Topo Chico. However, having brand deals isn't all that

punk rock considering most companies aren't all that ethical (the more ya know). Therefore, we decided to let the personalities of our bandmates shine in these photoshoots.

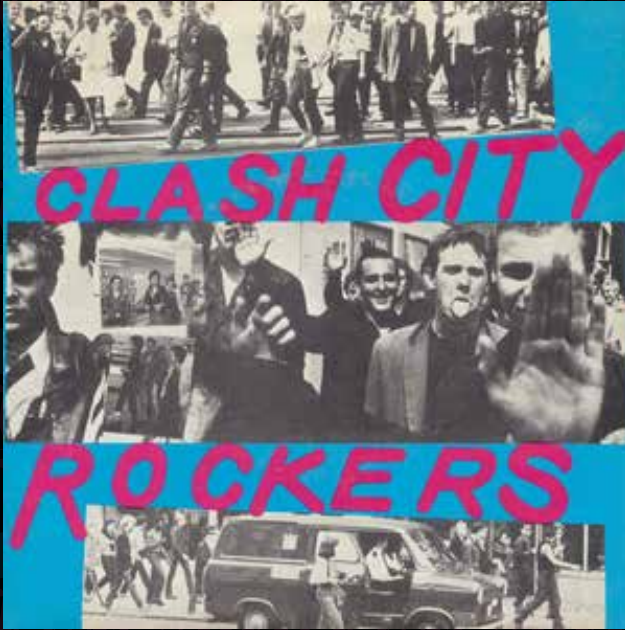

These were photographed in a few different locations. Also, we only had everyone for the group photo so almost all members had to be shot at different times. Julie, Tony, & Odin worked incredibly hard making sure the lighting, the

poses, and the environments suited everyone's unique qualities. We were quite surprised at just how great these photos turned out. These photos encompass what the team stands for.

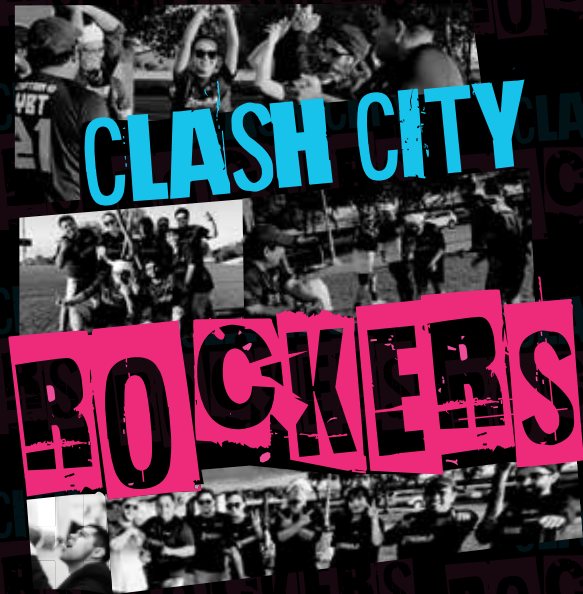

The black & white photos with the logo color pop was essential to highlight the teammates & the logo. Let's get more into the logo design on the next page!

LOGO CREATION

INSPIRATION

FINAL

A jolly good shout by co-captain Tony

Why Clash City Rockers? Simply put, Jaan grew up playing the Tony Hawk games. One of them was Tony Hawk's Proving Ground. The soundtrack of that game included a song by a 1970s punk rock band. Clash City Rockers by The Clash became a consistently repeated song in Jaan's playlist as a kid. However, he would later relive some nostalgia in

his 20s which resulted in the song making its return to his music selection.

It is unanimously agreed that our logo design gets better every year. Originally, we had just typed out Clash City Rockers, but our wise co-captain, Tony, decided that it wasn't enough. He looked through inspiration and found this song cover. Jaan was able to recreate the logo using photos from 2025's

cricket game. On top of that, everyone got to choose their band role which is prominently featured on the back of everyone's jerseys.

The electric color scheme was curated by Julie. She's already well-versed in blue & pink color schemes so she was able to find just the right colors for our logo.

A TOUGH LOSS

Knights: 142

CCR: 95

Shoutout to the Knights of Rome for taking their 3rd trophy in a row. Thankfully, we did not go down without a fight. Furthermore, Jaan had a stellar game from the bowling side of things and took home his second Best Bowler trophy. Jenny, Mariana, Carlos, Mark, & Vic held down the outfield as best as they could. They did such a great job that Carlos & Mark were able to eliminate Romesh from the game. Carlos consistently got teased for not showing up to practice, but ended up eliminating the best player of the bunch. It cannot be overstated how important he was to the team.

Mark, Des, DLo (our tank took shot after shot), Julie, & Odin all stepped up on the batting side of things. It was a rough offensive game for the CCR, but they put up numbers in an attempt to even the playing field. Overall, we are happy with our team's performance. It may be another loss, but that did not deter how much we enjoyed playing cricket with each other.

Lastly, we did want to shout out the Knights. Javi, Jeighcob, & Terrance delivered standout

performances that sealed the win for their team. Although, Jaan will always be salty about his pitch against Jeighcob going clean through the wickets instead of knocking them over. Then, just a few pitches later, Jaan would go on to slip on wet grass & injure his leg. Therefore, he played hurt for about 90% of the game. These two catastrophic events changed the whole course of the game and created a nearly 50-run swing.

But alas, the Knights played well. Javi, in his rookie season, showed great skill in batting. No one on the CCR could handle what he was dishing out & that was enough for him to earn the Best Batsman trophy. Jeighcob also showed up when it came to batting. So much so, that he was declared the game's MVP.

On the pitching side, there was also another player that was hurt. Terrance came in with an injured shoulder & still showed up with great bowling prowess. All of this combined was enough for the team to seal the win & take the trophy. Congrats to them!

It is always an honor playing with the Knights and we can't wait to do it again next year.

AN ODE TO COACH ROME

The reason why we're able to do what we do every year

He may be the head coach of the opposing team that we face year after year, but that does not mean that we do not appreciate what Rome has done and what he is constantly doing to facilitate these matches.

What started as a quick game between co-workers on a fateful Sunday afternoon in the state of California evolved into a heated rivalry that has lasted three years and counting. It is fair to say that without the knowledge and know-how of Rome, we would have not come to understand and appreciate the game of cricket and its intricacies.

As the matches come and go, Rome is always there to guide and teach us new rules that seem to pop up out of nowhere. They seem to be unlocked as our experience with the game increases. Luckily, this seems to happen during our practices, and not the actual day of the official game. As per tradition, hopefully we can unlock more rules the following year.

Regardless of time and place, Rome always shows his fervent passion for cricket. Always making time to have some discussions about the game he owes to anyone that is curious. All of us are appreciative of

Romesh's generous and patient demeanor on and off the field. The passion that he has shown through his actions is quite contagious. That probably explains why the teams have grown to the sizes they are now. We are at the point where we have extras on each team. In addition, there are players that are becoming specialized in particular areas of the game. All these developments started with one person and a dream.

On behalf of our team we are thankful for all that you've done for our overall cricket experience and are looking forward to the following games to come.

Bollocks and cheers to the person that has gotten us here.

Thank you, Romesh!

Post edit note*: This was an editorial piece meant to express the views of a particular section of the overarching cricket community. All views and opinions are representative of their respective individual who expressed them. Also, this should not be seen as a glaze fest. We don't do that here.
