

Faiz Razi

Software Engineer | Full Stack & Frontend (React, Rails, React Native)

Riyadh, Saudi Arabia • +966-56-544-9054 • fayzeraze@gmail.com • faizme.com • linkedin.com/in/faizrasi • github.com/Faiz-Razi

PROFILE

Full Stack Software Engineer with 7+ years of experience delivering production-grade web and mobile applications across enterprise, e-commerce, and CMS platforms. Broad, hands-on range spanning frontend (React, JavaScript ES6+), backend (Ruby on Rails, REST API design), and mobile (React Native, TypeScript, Redux, Expo). Proven track record integrating complex third-party systems (CRM platforms, payment gateways), leading small dev teams, and shipping features end-to-end in Agile, cross-functional teams. Comfortable moving between UI/UX-focused frontend work, backend/API development, and native mobile builds within the same project.

CORE SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind, GSAP, Responsive/UX-driven UI

Testing & QA: Manual functional testing, cross-browser/cross-device QA, bug triage & regression checks

Mobile: React Native, TypeScript, Redux, Expo, Axios/REST API integration, Context API

Backend & CMS: Ruby on Rails, REST APIs, WordPress, Umbraco, WooCommerce, Elementor, WIX, Framer

Data & Infrastructure: PostgreSQL, MySQL, Git, GitHub, AWS S3, Google Analytics, A/B Testing

Design & Payments: Figma, Adobe XD, Notion, Tap, Moyasar

WORK EXPERIENCE

Software Developer

Solution Circle (Sccsaudi.com)

IT Consultant & Services

09/2020 – Present | Riyadh, KSA

- **Full stack ownership:** developed and maintained scalable enterprise web applications and e-commerce systems using Ruby on Rails and modern JavaScript frameworks.
- **Conversion optimization:** led optimization of checkout and conversion funnel architecture, improving conversion rates by 25% through UX and performance enhancements.
- **Performance:** enhanced application performance, reducing load bottlenecks and improving system reliability in production environments.
- **UI engineering:** designed and implemented responsive UI components using modern frontend standards, improving user engagement by 30%.
- **Analytics:** integrated Google Analytics and A/B testing frameworks to drive data-driven product optimization and user behavior analysis.
- **Team leadership:** informally led a team of 4-5 developers across multiple projects, consistently delivering on time and to client specifications.
- Collaborated with product owners, designers, and backend engineers in Agile delivery cycles.

Web Developer

Syrup Entertainment

Entertainment Company

09/2019 – 09/2020 | Riyadh, KSA

- **Migration:** led migration of a legacy system to a modern CMS-based architecture, improving scalability and maintainability.
- **Payments:** implemented secure payment gateway integration, enabling seamless online transactions and increasing platform adoption by 100% at launch.
- Redesigned UI/UX interfaces in collaboration with design teams, improving usability and customer satisfaction metrics.
- Developed internal web tools and admin workflows, enabling non-technical staff to independently manage content.
- Created technical documentation and system guidelines to support long-term maintainability and operational efficiency.
