21st World Conference on Non-Destructive Testing 2028 - Buenos Aires

On behalf of the Argentine Society of Structural and Nondestructive Testing (AAENDE), it is our pleasure to extend a cordial invitation to you to attend the 21st World Conference on Non-Destructive Testing (21st WCNDT) 2028, to be held in the city of Buenos Aires, Argentina, under the auspice of ICNDT.

As one of the most prestigious events in the field of NDT, 21st WCNDT promises to be an opportunity for companies, professionals and experts from around the world to converge, share knowledge, and collaborate on the latest advancements in non-destructive testing and structural evaluation.

AAENDE, serving as the organizer of 21st WCNDT, represents Argentina's dedication to excellence in NDT and structural testing. With a rich history of promoting research, education, and professional development in the field, AAENDE is committed to providing a platform for the exchange of ideas and the advancement of NDT practices.

The event will take place at The Rural, Buenos Aires Exhibition Center, a world-class venue known for its modern facilities, versatile spaces, and strategic location in the heart of Buenos Aires. With its capacity to accommodate large-scale conferences and exhibitions, The Rural, Buenos Aires Exhibition Center ensures that 21st WCNDT will be a productive experience for all attendees

Argentina holds a prominent position in the realm of non-destructive testing, thanks to several key factors:

Expertise and Innovation: Argentine professionals and institutions are at the forefront of NDT research and innovation, contributing to advancements in technology and methodology across various industries.

Industry Applications: From aerospace and automotive to energy and infrastructure, NDT plays a critical role in ensuring the integrity and safety of vital assets and projects in Argentina and beyond.

Academic Leadership: Argentine universities and research institutions excel in NDT education and training, producing skilled professionals who drive innovation and excellence in the field.

Regional Influence: As a regional leader in NDT expertise, Argentina actively collaborates with neighboring countries and regional organizations to promote best practices, standards harmonization, and capacity-building efforts.

We believe that your presence at 21st WCNDT will enrich the congress and contribute to meaningful discussions and collaborations that will shape the future of NDT. We invite you to join us in Buenos Aires for this event and to explore all that the city and the congress have to offer.

Eng. César Belinco, WCNDT 2028 President

Eng. Alejandro García, AAENDE's President

Eng. Jorge Pablo Amsler, AAENDE's Vice-President

Why participate?

WCNDT 2028 will serve as a pivotal platform for industry leaders, professionals, and researchers to converge and exchange insights on the latest trends, technologies, and methodologies in NDT. By participating, companies will gain access to cutting-edge knowledge and innovations.

Moreover, Buenos Aires, offers an exceptional setting for the conference. Participants will have the chance to immerse themselves in the city's rich cultural environment.

From a commercial perspective, Argentina and the region present lucrative opportunities for companies in the NDT sector. With great industries such as manufacturing, oil and gas, aerospace, and automotive, there is a growing demand for advanced NDT solutions to ensure quality control, safety, and regulatory compliance. Participating in WCNDT 2028 provides companies with a platform to showcase their products and services and forge strategic partnerships.

We firmly believe that participating in WCNDT 2028 in Buenos Aires is not only a sound business decision but also an enriching cultural experience. It offers companies in the NDT sector a unique opportunity to expand their networks, and explore the vibrant landscape of Argentina. We look forward to welcoming you to this esteemed conference and to facilitating meaningful connections and collaborations.
