Quantum

PODCAST MEDIA PACK

SEPTEMBER 2026

BROUGHT TO YOU BY

The podcast bringing quantum into the real world.

Time to Talk Quantum is a new podcast hosted by Dr. Kris Naudts, co-founder of Firgun Ventures, a \$250M VC fund focused on early growth-stage quantum technology companies. Dr. Naudts is also a neuroscientist, psychiatrist, and founder of Culture Trip. The podcast features conversations with the world's top entrepreneurs, experts, artists and investors driving the field from lab to market.

WHY IT STANDS OUT

Commercial lens

From lab breakthroughs to market adoption.

Cross-sector reach

Quantum meets AI, health, finance, defence and culture.

Distinctive sound

Featuring NGN2 by ILÁ from Quantum Computer Music.

Host & Selected Guests

Dr Kris Naudts

Host + Co-Founder, Firgun Ventures

Dr Kris Naudts brings a rare mix of scientific, clinical, entrepreneurial and media experience. A former academic psychiatrist and medical doctor at King’s College London, Kris holds a PhD in computational neuroscience and founded Culture Trip, raising more than \$100 million and growing the platform to 20 million monthly visitors. Today, as co-founder of Firgun Ventures, he brings that curiosity to quantum innovation and its intersections with AI, health, finance, defence and art.

Selected guests shaping the field

Academics, founders, investors, artists and industry leaders moving quantum from theory to application.

Professor Mete Atatüre
University of Cambridge

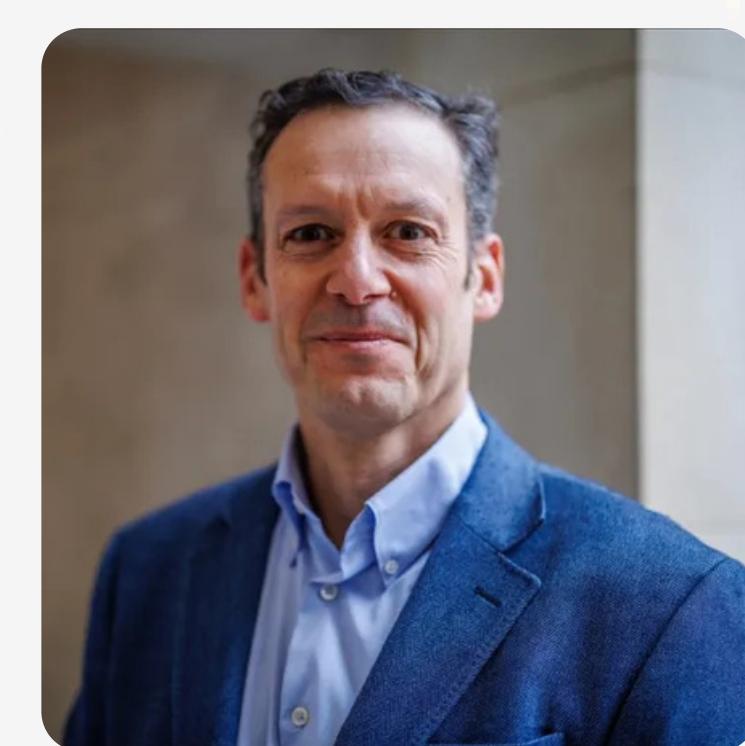

Professor Lara Jehi
Cleveland Clinic

Joab Rosenberg
Deep33 Tech Venture Fund

Refik Anadol
Dataland

John Ridge CBE
NATO Innovation Fund

Professor Bob Coecke
Oxford University

Professor John Morton
Quantum Motion

Clare Schramm
Lloyds Bank

Conversations with the people shaping quantum’s next chapter.
