

DR. GREG KIMBLE

AUDIO/VISUAL & STAGE RIDER

Please review these technical requirements to ensure a seamless presentation. If any of these requirements cannot be met, please notify the team prior to the event.

AUDIO REQUIREMENTS

- **Microphone:** One (1) Wireless Lavalier or Headset Microphone (Shure/Sennheiser preferred). Dr. Kimble moves dynamically on stage and requires hands-free audio.
- **Backup:** One (1) Wireless Handheld Microphone available at the A/V booth.

VISUAL & PRESENTATION

- **Screen Aspect Ratio:** 16:9 Widescreen format.
- **Display Connection:** HDMI input at the stage or A/V console.
- **Confidence Monitor:** A downstage confidence monitor displaying the slide deck and timer is strongly preferred for main stage keynotes.
- **Whiteboard/Flipchart (Optional):** For workshops or smaller interactive sessions, a standard whiteboard with black markers or a heavy-duty flipchart is required.

STAGE SETUP

- **Stage Area:** Clean, open stage floor. Dr. Kimble does not speak behind a podium or lectern. Please ensure any podiums are moved to the side prior to his talk.
- **Hydration:** Two (2) unopened bottles of room-temperature water on a small side table.

RECORDING & MEDIA RIGHTS

- **Video/Audio Recording:** Event organizers may record Dr. Kimble's presentation for internal or archival use. Commercial distribution or sale of the recording requires prior written consent.
- **Media Assets:** Approved hi-res headshots, logos, and intro copy are available at camokimble.com/media.
