

evolutiq Impact Advisory names Dr. Rupini Deepa Sobottka as New Director to Lead Sustainable Finance and ESG Innovation

Cologne, July 1, 2026 — evolutiq Impact Advisory, a boutique consultancy specialising in impact and sustainability management, today announced the appointment of Dr. Rupini Deepa Sobottka as a new Director. This strategic move aims to bolster the firm's leadership in sustainable finance and ESG advisory services, championing innovative solutions that empower organisations to achieve impactful, long-term success.

Dr. Rupini Deepa Sobottka brings over 17 years of international experience in ESG strategy, stewardship, sustainable finance, and impact investing within the financial institutions sector. She has held senior leadership roles at leading financial institutions, driving ESG integration, responsible investment, stewardship, and sustainability transformation initiatives aligned with long-term value creation and regulatory expectations. Recognised for her expertise in sustainable finance, stakeholder engagement, and ESG governance, her expertise in integrating advanced technologies with sustainability initiatives has established her as a respected voice in the field.

As impact and sustainability become central to business and investment strategies, organisations face increasing demands for transparency and long-term value creation. From impact-lenses for investors, to MaRisk and engagement strategies, evolutiq Impact Advisory is dedicated to guiding clients through these complexities with high-quality, pragmatic solutions that deliver on a fit-for-purpose level.

"Our ambition is to be the one-stop-shop for impact and sustainability – from impact mandates and impact finance, through ESG and sustainable finance to the direct work with companies on their future fitness for the economy of tomorrow. This takes experience, expertise and the commitment to make a partner's project your own – especially in the age of AI. With Rupini, we take a decisive step towards this comprehensive promise – and gain a colleague who we value highly on her expertise as well as already for her team spirit, integrity and personal ambition," said Dr. Julian Frede, Managing Partner of evolutiq Impact Advisory.

"I look forward to collaborating with clients to integrate ESG effectively, leveraging technology and AI to transform sustainability strategies into practical, impactful actions. Together, we can build a more sustainable and responsible future," stated Dr. Sobottka.
