What is Goa Edition?

4 days

in Goa
6-9 August

7 speakers

India's Top AI leaders,
VCs, Government voices.

15 participants

CXOs, Founders, Leaders,
Consultants, SMEs.

1 direction

Reinvent yourself,
while adopting AI.

AI Village-Goa Edition is an executive residency for women who are actively shaping the future of their organisations.

Over four immersive days in Goa, a carefully curated cohort of founders, investors, CXOs, consultants and industry leaders comes together to redesign their careers, businesses and leadership for the AI era.

Practical AI learning. Strategic conversations. Shared experiences. Participants leave with a clear blueprint to their next big breakthrough, and a whole ecosystem of support.

The residency lasts four days. The Village is for life.

Why AI Village?

The Village: You don't join AI Village to collect contacts or learn another AI tool. You join because there comes a point in every leader's journey when access is no longer the challenge. Finding the right people is. The people who will remember your ambition when you're too tired to remember it yourself. The people who quietly say, "I see what you're building. How can I help?" and remind you, what's your edge in this AI-era.

That's what a village has always been. And that's what we're building together.

Learning Experience

AI Strategy Workshops

Identify high-impact AI opportunities, prioritise investments and build an AI roadmap.

Working Labs

Hands-on sessions. Solve real AI challenges from your own business or role. Build practical frameworks and action plans.

Executive Dialogues

Confidential conversations on leading AI change, and high-stakes decisions.

Founder Hot Seats

A confidential problem-solving session. Founders work alongside peers, investors and VCs.

Fireside Conversations

Thought-provoking dialogues. Explore future of leadership, innovation and responsible AI.

AI Tool Studios

Explore, test and build with the most effective AI tools and workflows.

Village Experience

Curated Dinners

Dinners designed to spark meaningful conversations, unexpected collaborations and relationships that continue long after the residency.

Morning Grounding

Begin each day with mindful movement and reflection to create the clarity, focus and presence.

Walking Conversations

You'll be paired with someone outside your industry. You'll each carry one question you've been avoiding.

Reflection Time

Dedicated pauses throughout the residency to process insights, capture ideas and translate learning into personal action.

Small Circle Dialogues

Vulnerability and shared experiences lead to deeper learning and lasting connections.

Sunset Conversations

Where some of the residency's most authentic ideas, collaborations and friendships naturally emerge.

WHAT to expect in 4 days ?

AI Village is intentionally designed to slow you down, so you can think more clearly, learn more deeply and build more meaningful relationships.

1. ^{DAY} Pause & Connect

- Connect with the cohort, your groups and the keynote speakers.
- Get your AI workbooks and define your individual goals.
- Dinner and bonfire.

2. ^{DAY} See Clearly

- Grounding session.
- Define AI thesis, gain clarity on where you stand in a rapidly changing AI landscape.
- Evening celebration by the beach.

3. ^{DAY} Build Something

- Energy and movement session.
- Move from ideas to action through strategy, prototyping, and building an AI opportunity that is uniquely yours.
- Unwind with spa, swimming and anything that anchors you.

4. ^{DAY} Choose What's Next

- Guided meditation and anchoring session.
- Bring everything together, create your roadmap, and define what you will build, lead, or change next.
- Closing session with salsa networking.

Seat Cost:: ₹1,50,000 + taxes
