PROFILE

Food Science and Technology graduate and UI/UX Designer and Framer Developer with 2+ years of experience building responsive websites for paying clients. I design in Figma and build with Framer and code created with AI assistance, and I am keen to grow into software engineering and application development. My science background gives me an analytical, detail focused approach to solving problems, and I enjoy building reliable, user friendly digital products that serve both customers and business goals.

SKILLS

Design & Development

- Figma (UI design, prototyping, responsive layouts, design systems)
- Framer (building and publishing responsive, CMS driven websites)
- AI assisted development: translating Figma designs into working code using Claude Code
- Writing clear prompts and specifications from a design so a build matches it
- Reviewing and testing the output against the design across devices and screen sizes

Tools & Ways of Working

- Microsoft Office Suite (Word, PowerPoint, Excel) and Google Workspace
- Analytical problem solving and attention to detail
- Quick to learn new tools, including AI assisted development
- Reliable under deadlines, delivering client projects from brief to launch
- Collaboration with clients and stakeholders

Food Science & Quality

- Quality assurance and control, applying food safety and hygiene standards (HACCP, GMP)
- Compliance with standards and procedures, with accurate technical documentation
- Laboratory analysis and recording of results
- Data analysis using SPSS and Excel
- Food processing and product development

EXPERIENCE

UI/UX Designer & Web Developer

03/2025 – Present

Freelance

- Designed and delivered numerous client projects, producing over 200 screens across landing pages, portfolios, and CMS driven business websites.
- Ran the full design process solo, including requirements gathering, wireframing, prototyping, high fidelity UI design, and build.
- Built reusable component systems in Figma and Framer to maintain visual consistency across pages and speed up iteration.
- Conducted informal usability reviews and audits for prospective clients, identifying UX issues and proposing redesigns, such as structural and hierarchy fixes for a business website audit.
- Managed client communication and feedback independently, incorporating revisions into iterative design cycles, while applying responsive design principles across web and mobile breakpoints on every project.

NYSC - Administrative Officer

Ministry of Education, Science and Technology

02/2025 – 12/2025
Abeokuta, Nigeria

- Managed office operations, including correspondence, meetings, records, and procurement, ensuring documents stayed organized, agendas were followed, and vendor relationships ran smoothly.
- Designed training materials and user guides, including step by step tutorials and quick reference sheets, tailored to staff skill levels through targeted needs assessments.
- Delivered training sessions and follow up coaching, tracking trainee progress to reinforce learning and close skills gaps.
- Provided first line technical support and introduced digital tools and templates that standardized documents, reports, and presentations across the office.

SIWES Intern - Water Quality Technician (Food Processing Liaison)

Zealon Capital & Investment Limited

04/2023 – 09/2023
Lagos, Nigeria

- Collected routine water samples and performed basic tests including pH, turbidity, and residual chlorine, then entered results into spreadsheets and logbooks to support weekly and monthly summaries.
- Assisted with equipment inspections, cleaning, and basic preventive maintenance, including filter checks and pump lubrication.
- Prepared lab materials by cleaning glassware, preparing reagents, labeling samples, and sterilizing equipment, while helping compile SOPs, update checklists, and file compliance paperwork.
- Shadowed senior technicians during audits, trials, and client visits, and attended training sessions on safety protocols and testing methods.

EDUCATION**B.Sc. in Food Science and Technology**

Federal University Oye-Ekiti

2018 – 2024
Nigeria
