Meeting room capacities are determined by use of a standardized meeting room capacity measurement system used by Meeting Professionals International. This chart does not take into consideration obstructions that affect the capacity number of a room, such as columns, exits, airwalls, staging and audiovisual. 66" banquet capacities are based on 10 per table. 72" banquet capacities are based on 12 per table. Classroom capacities are based on 3 per 6' table. All meeting occupancies are quoted using standard banquet chairs.
