

ABOUT fuggeen?

introduction

Fuggeen is a digital presence management studio focused exclusively on architecture.

We work with architects because we come from the same environment. As architecture students, we understand:

- restraint
- readability of structure
- balance between elements
- sensitivity to detail
- continuity of language

why us

Your projects are not products. They are spatial ideas, identities, philosophies, and years of thought.

Most web agencies understand marketing. We understand architecture.

that's why we're the best

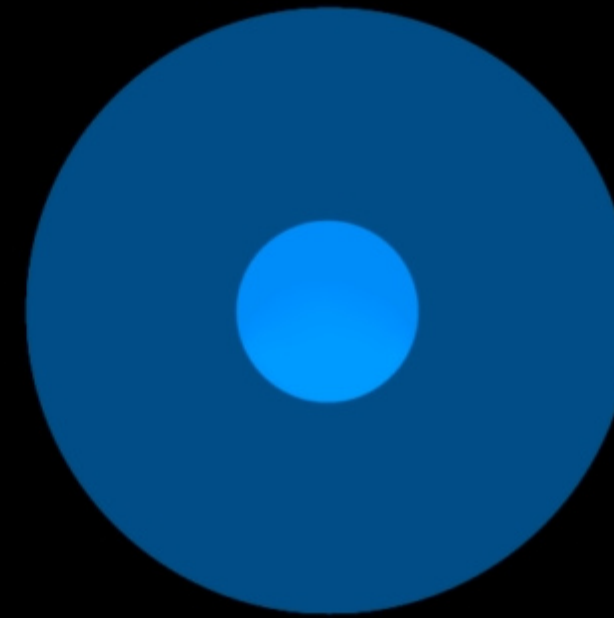

We know how architecture should feel online.

that's our only focus

what we'll cover for you

A studio can build exceptional architecture and still appear small online.

firm's
volume

how it
appears
online

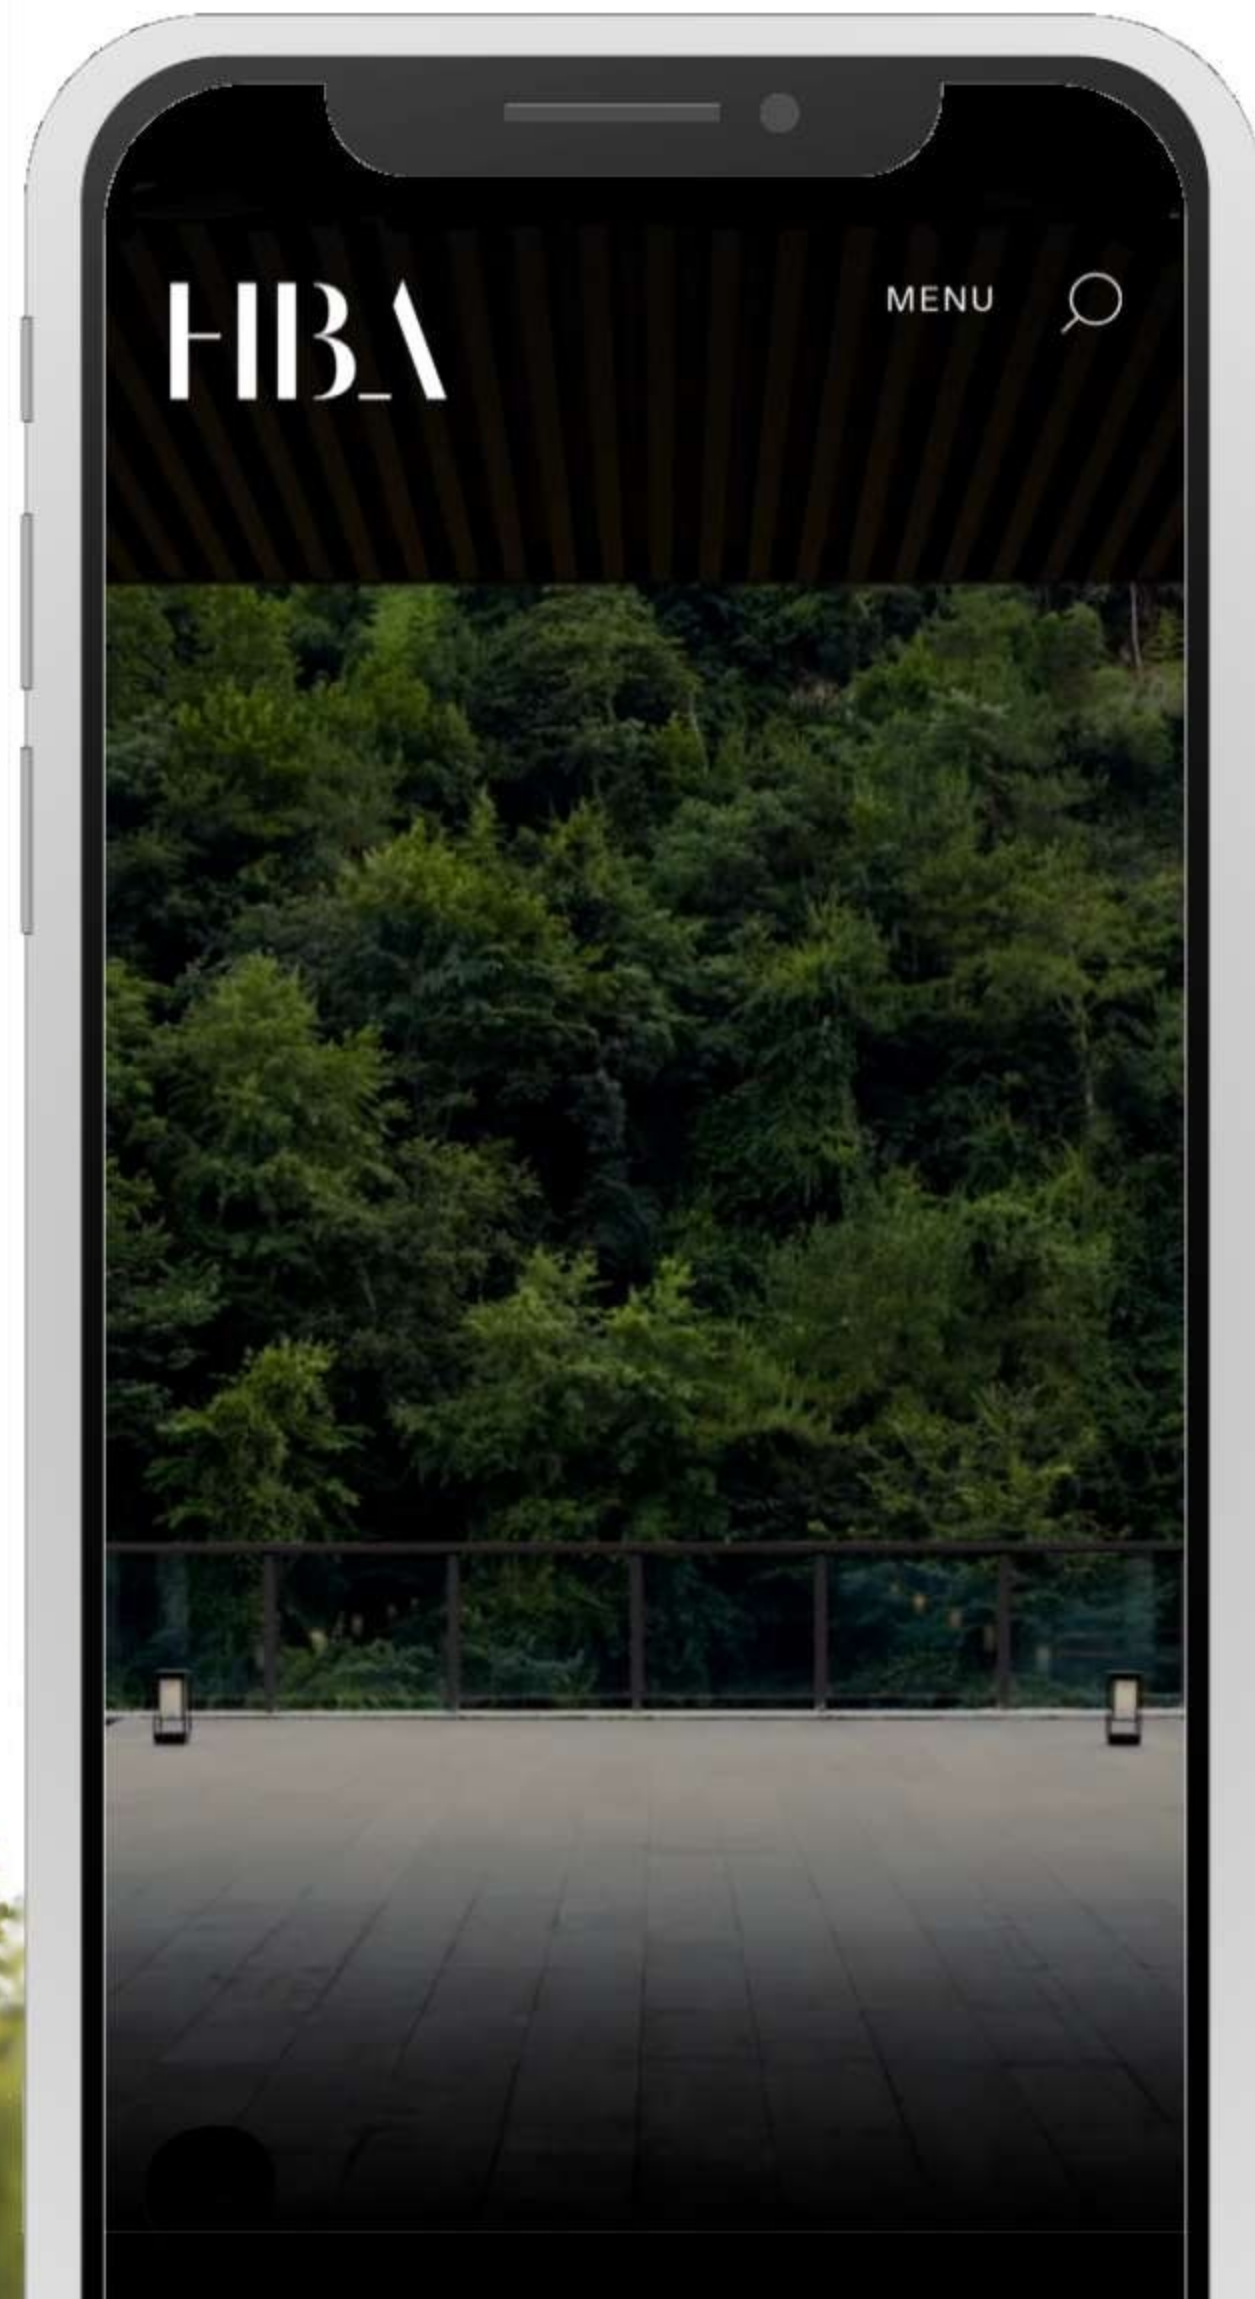

we aim to let you focus on architecture while we handle your digital presence silently.

you do what you do best, we showcase it the right way!

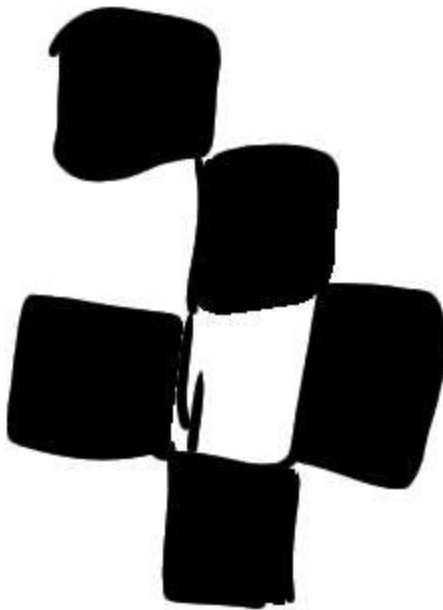

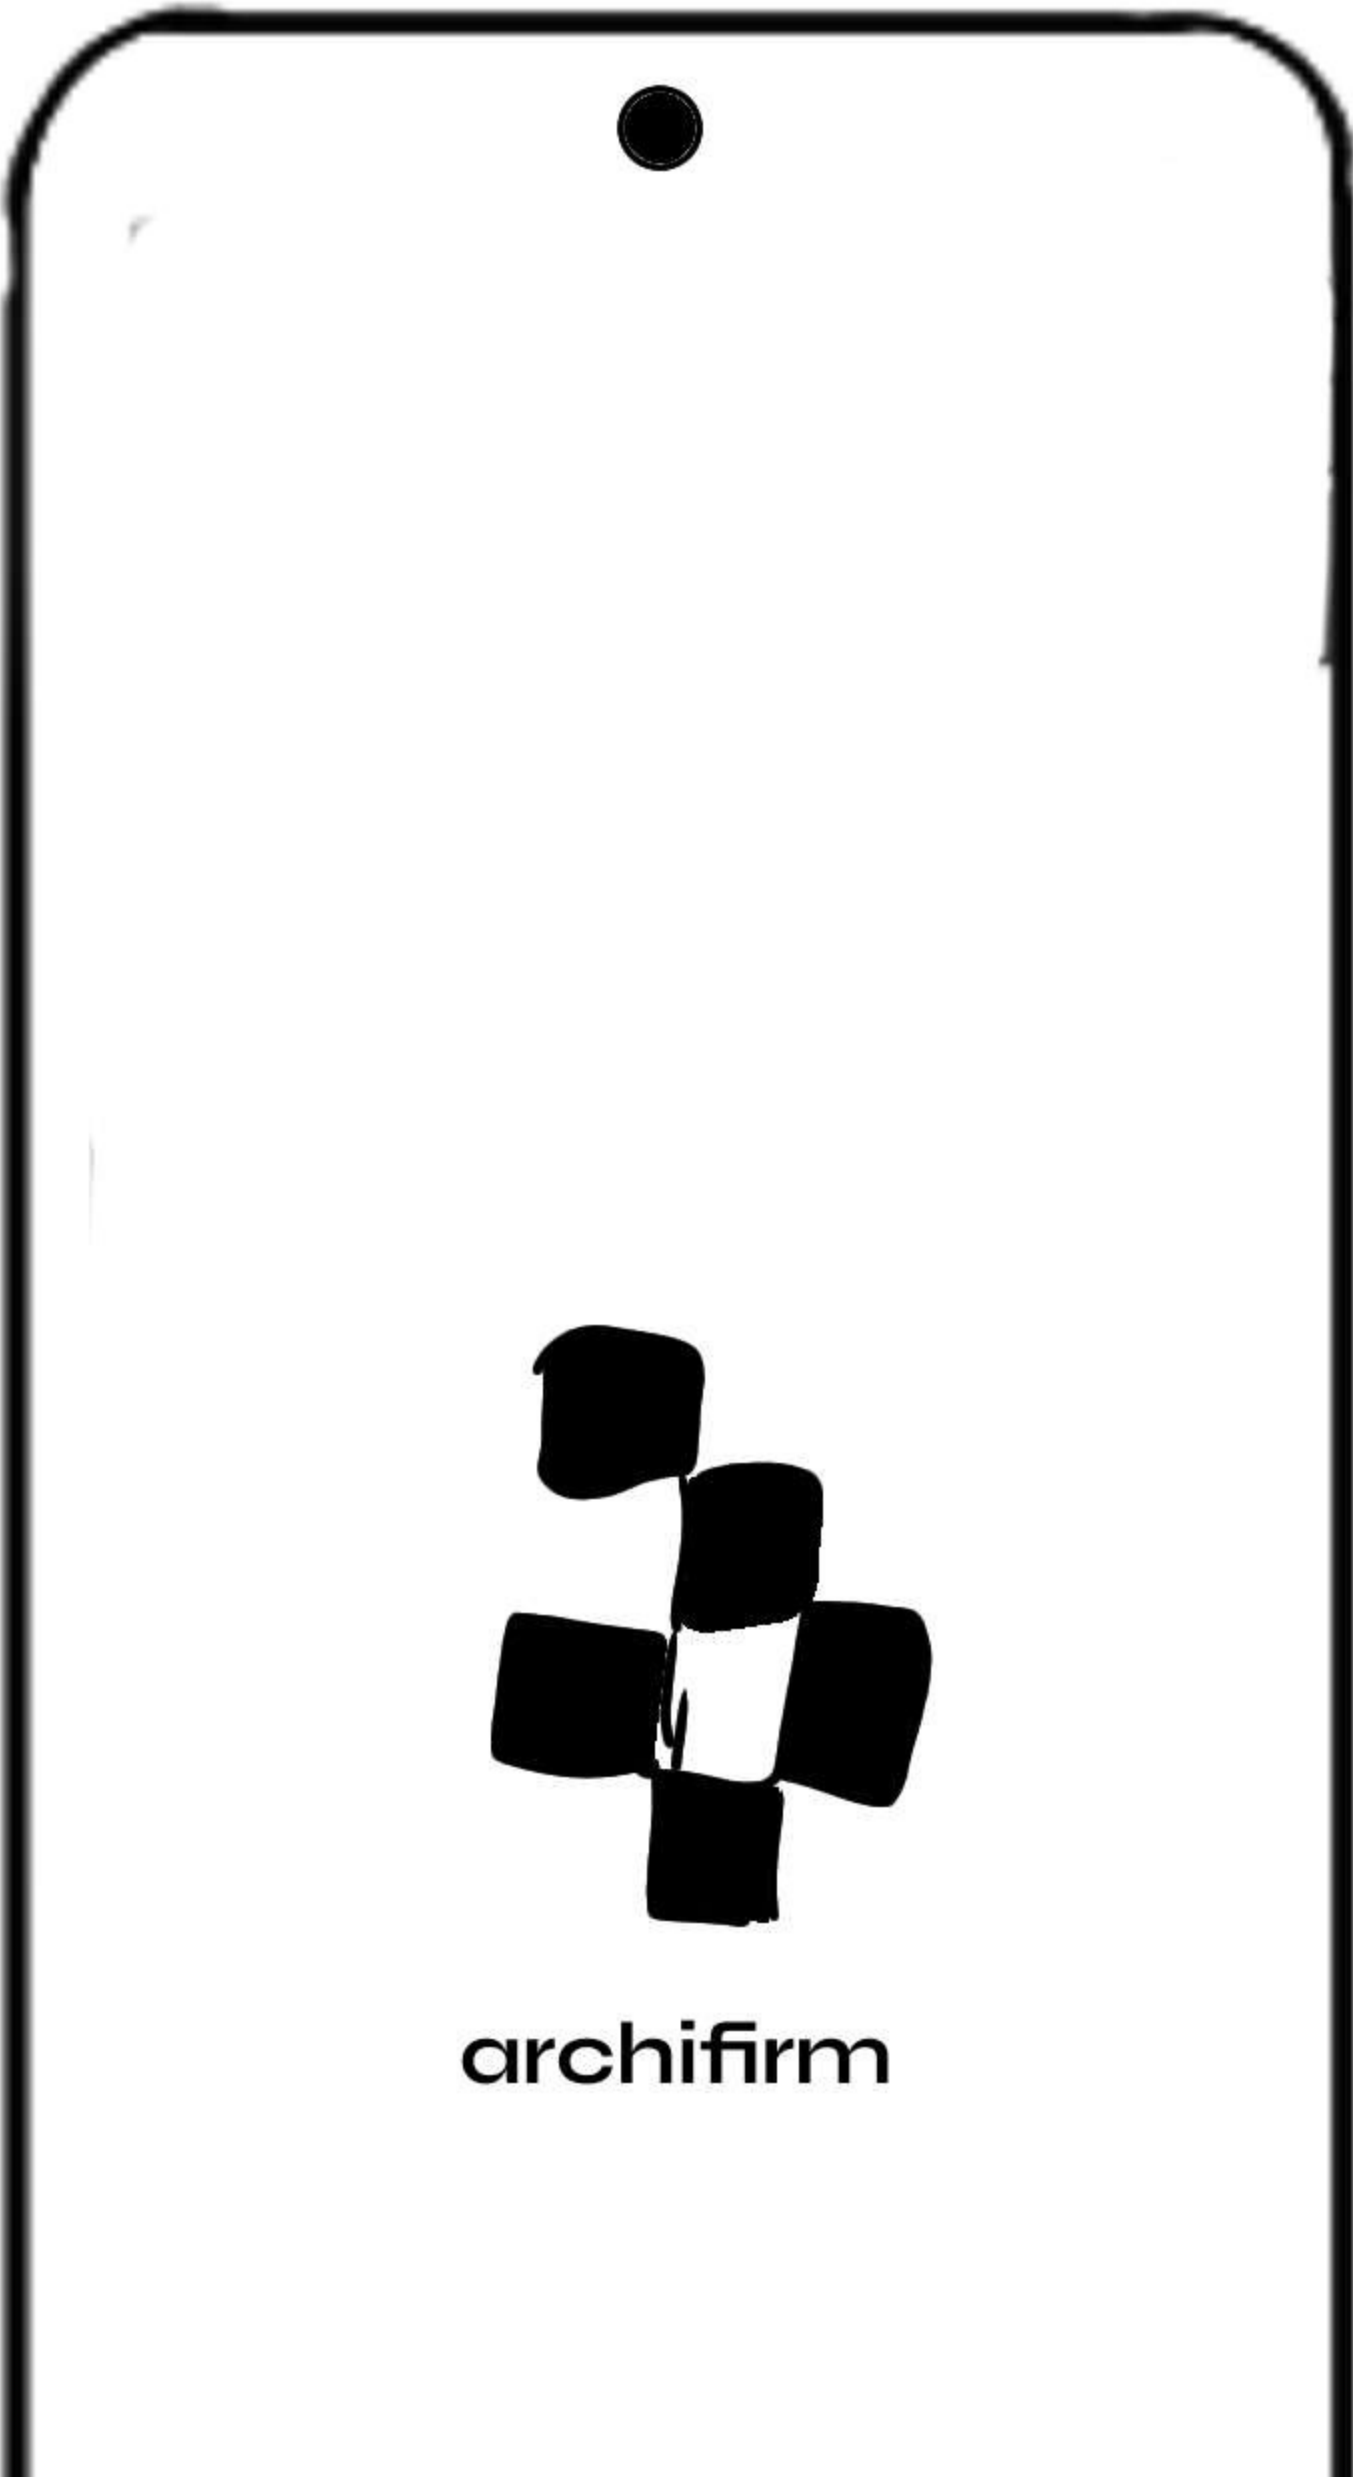

so, we don't just create websites we create systems

how we work

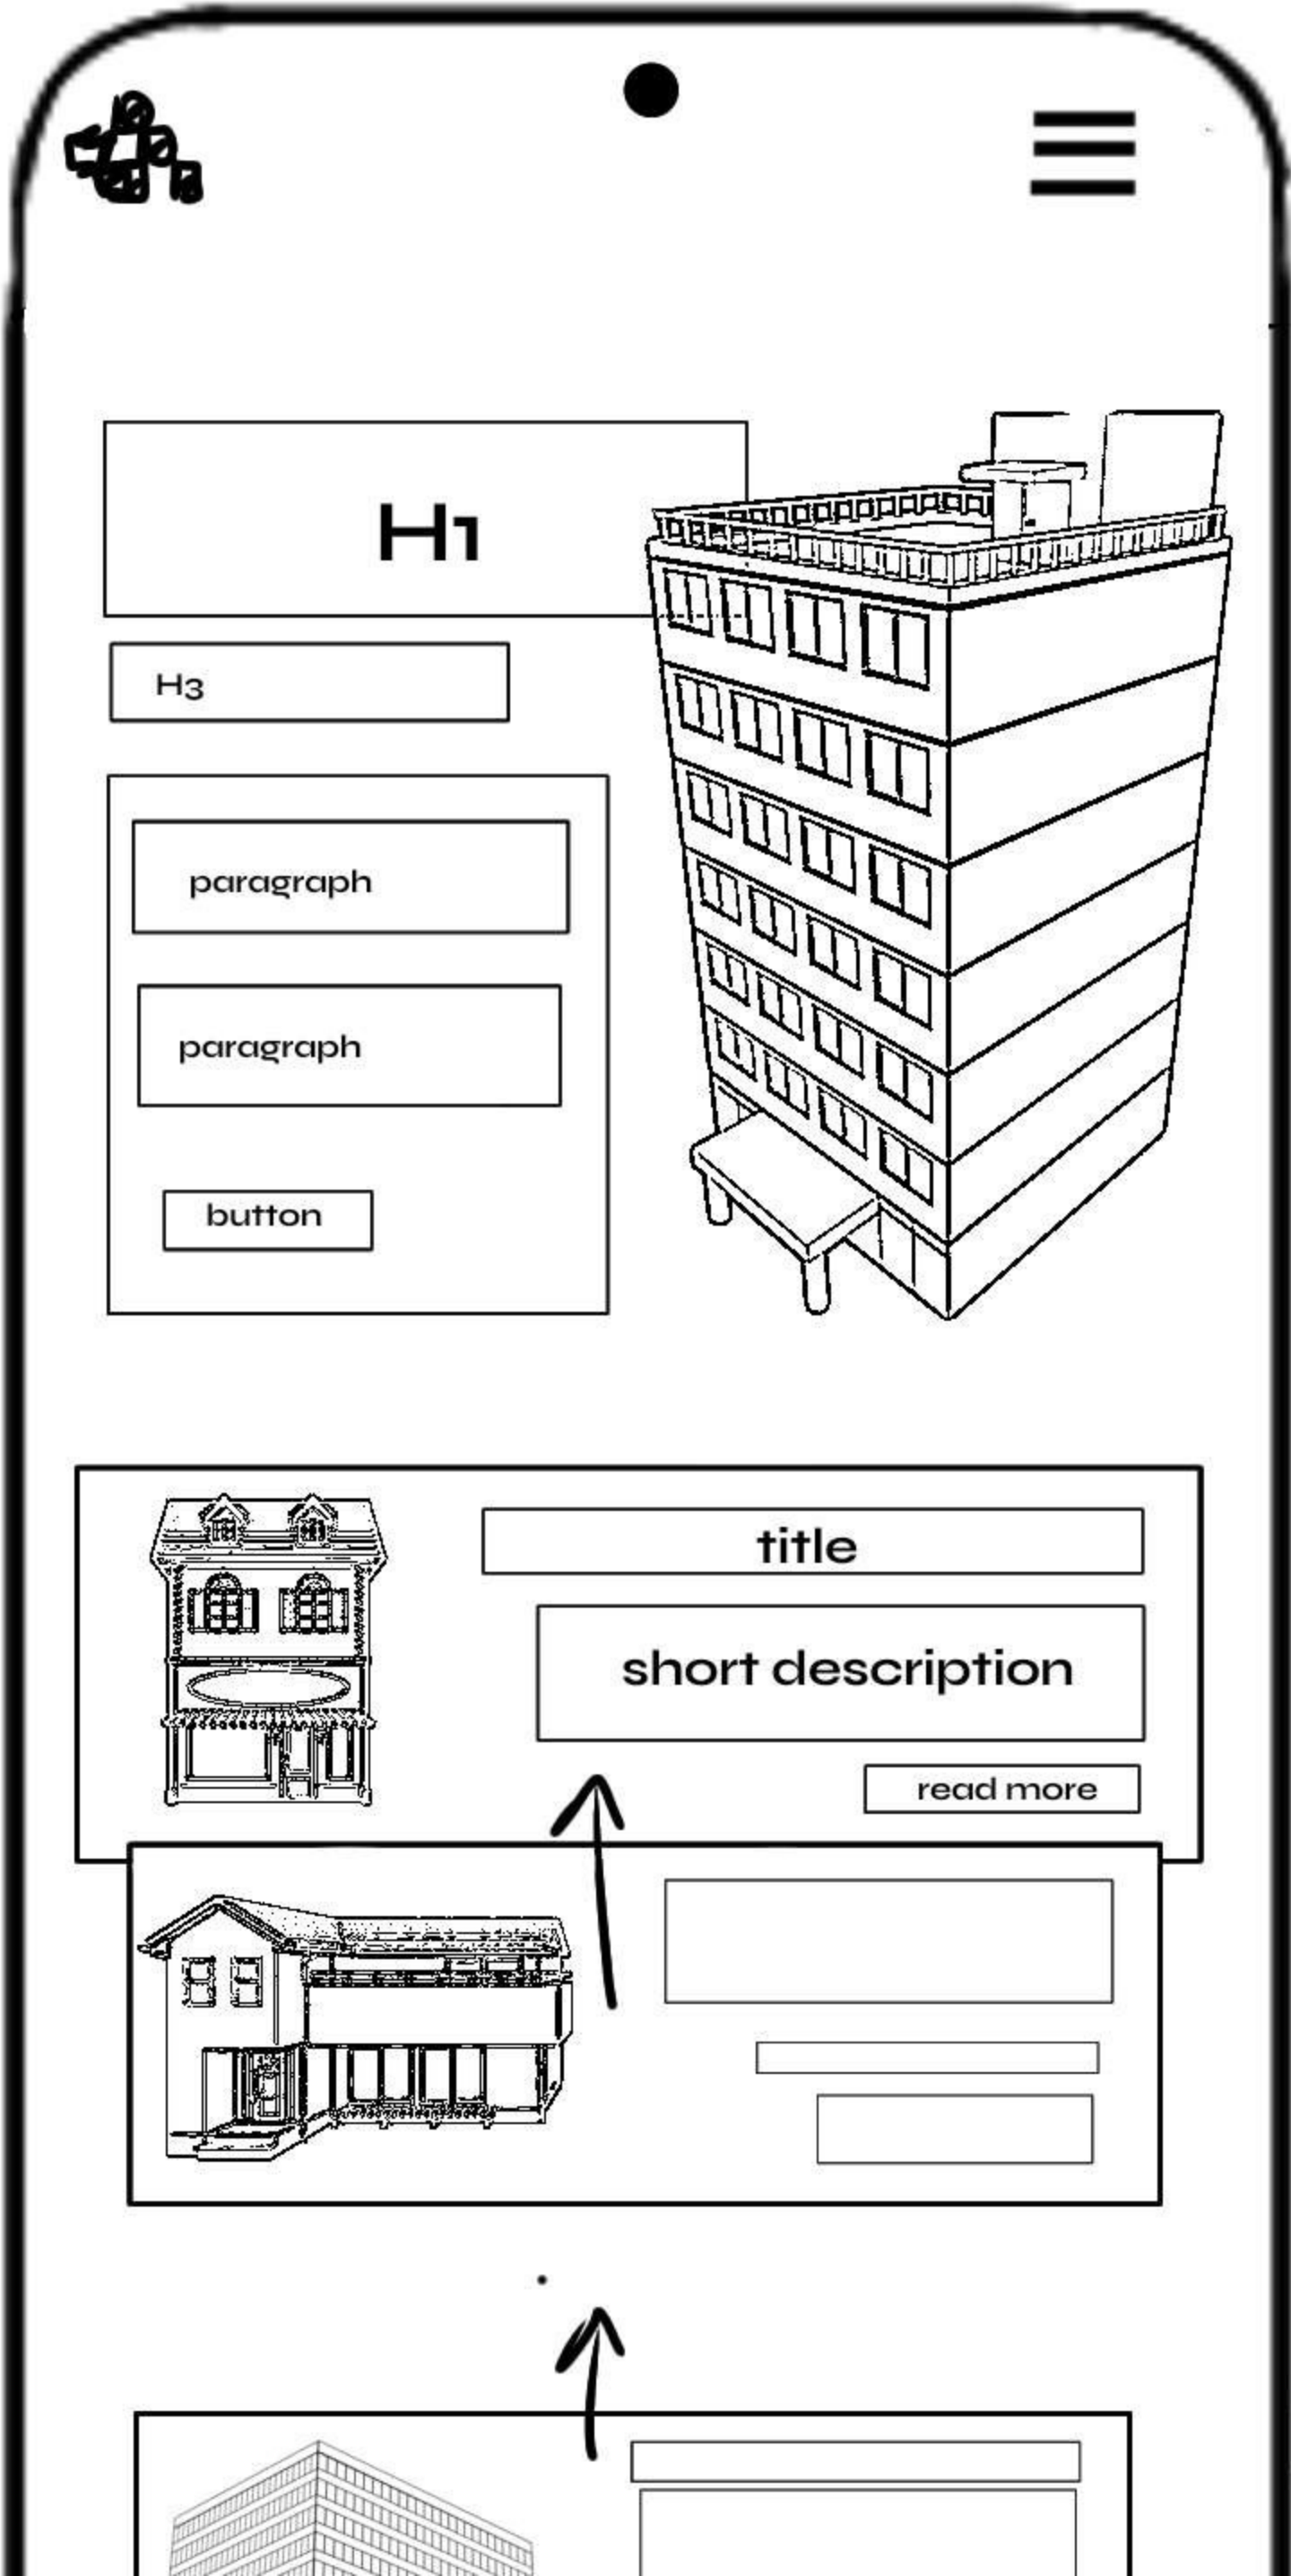

1- inspiration

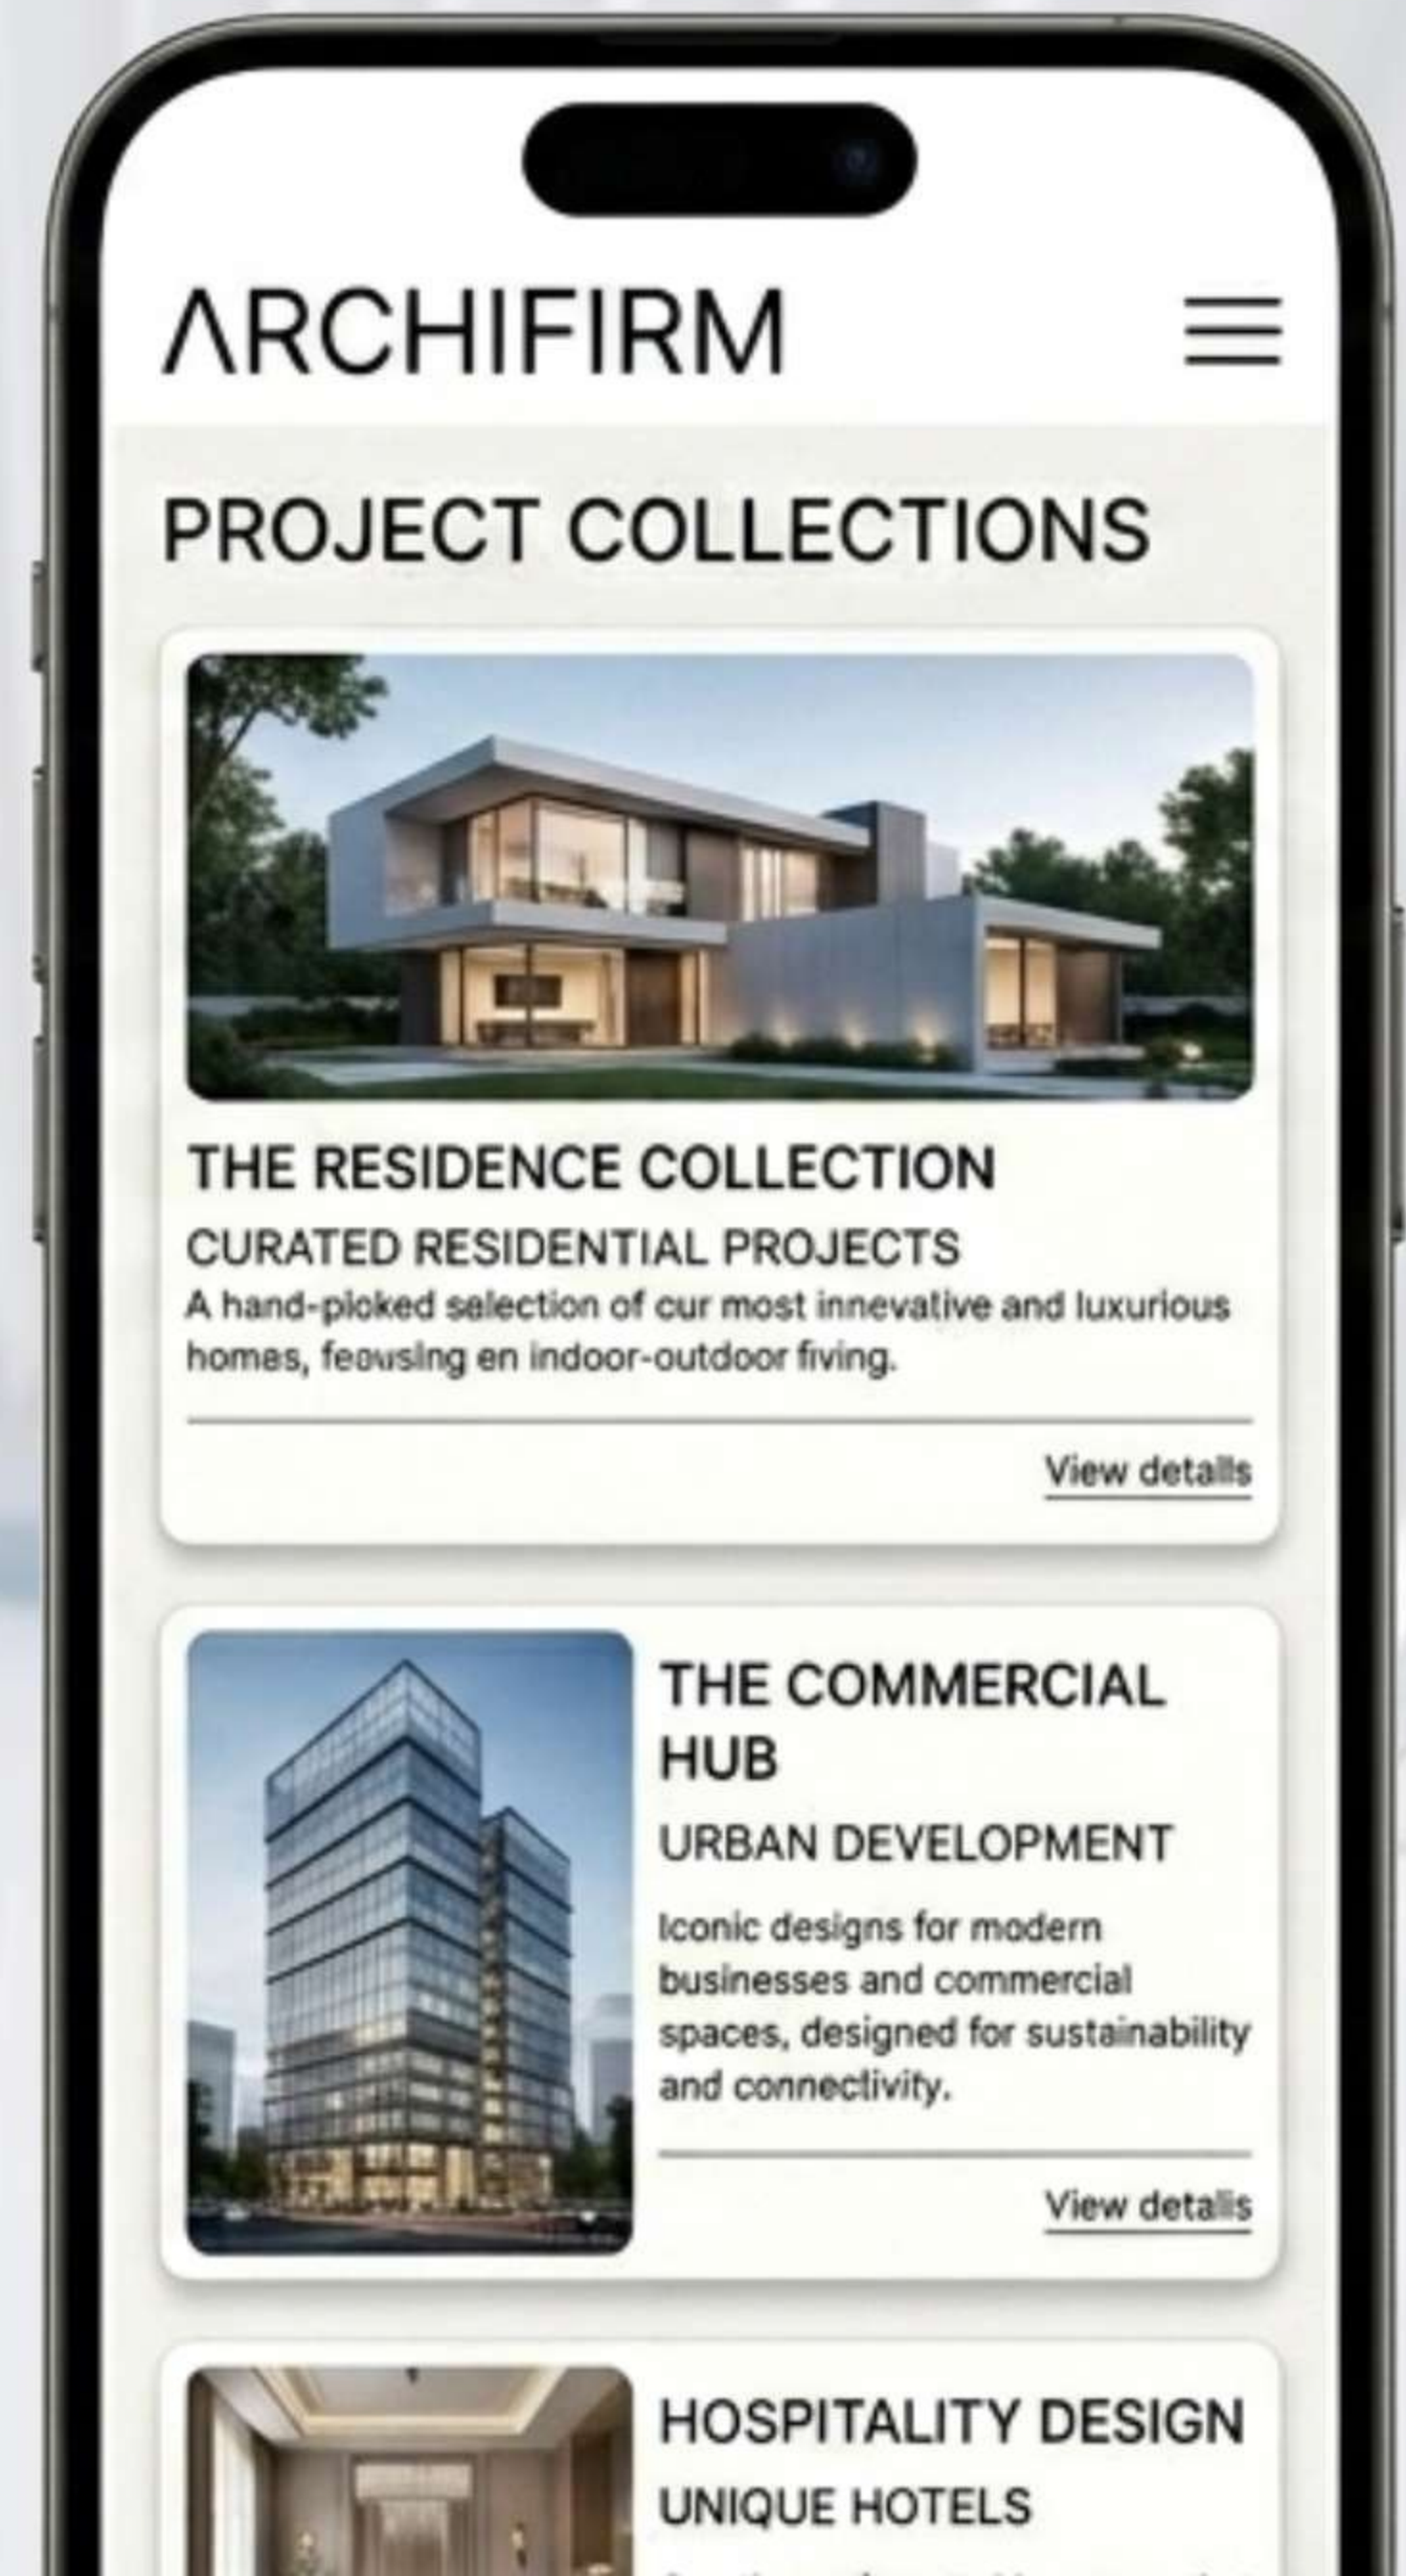

2- sketching

archifirm

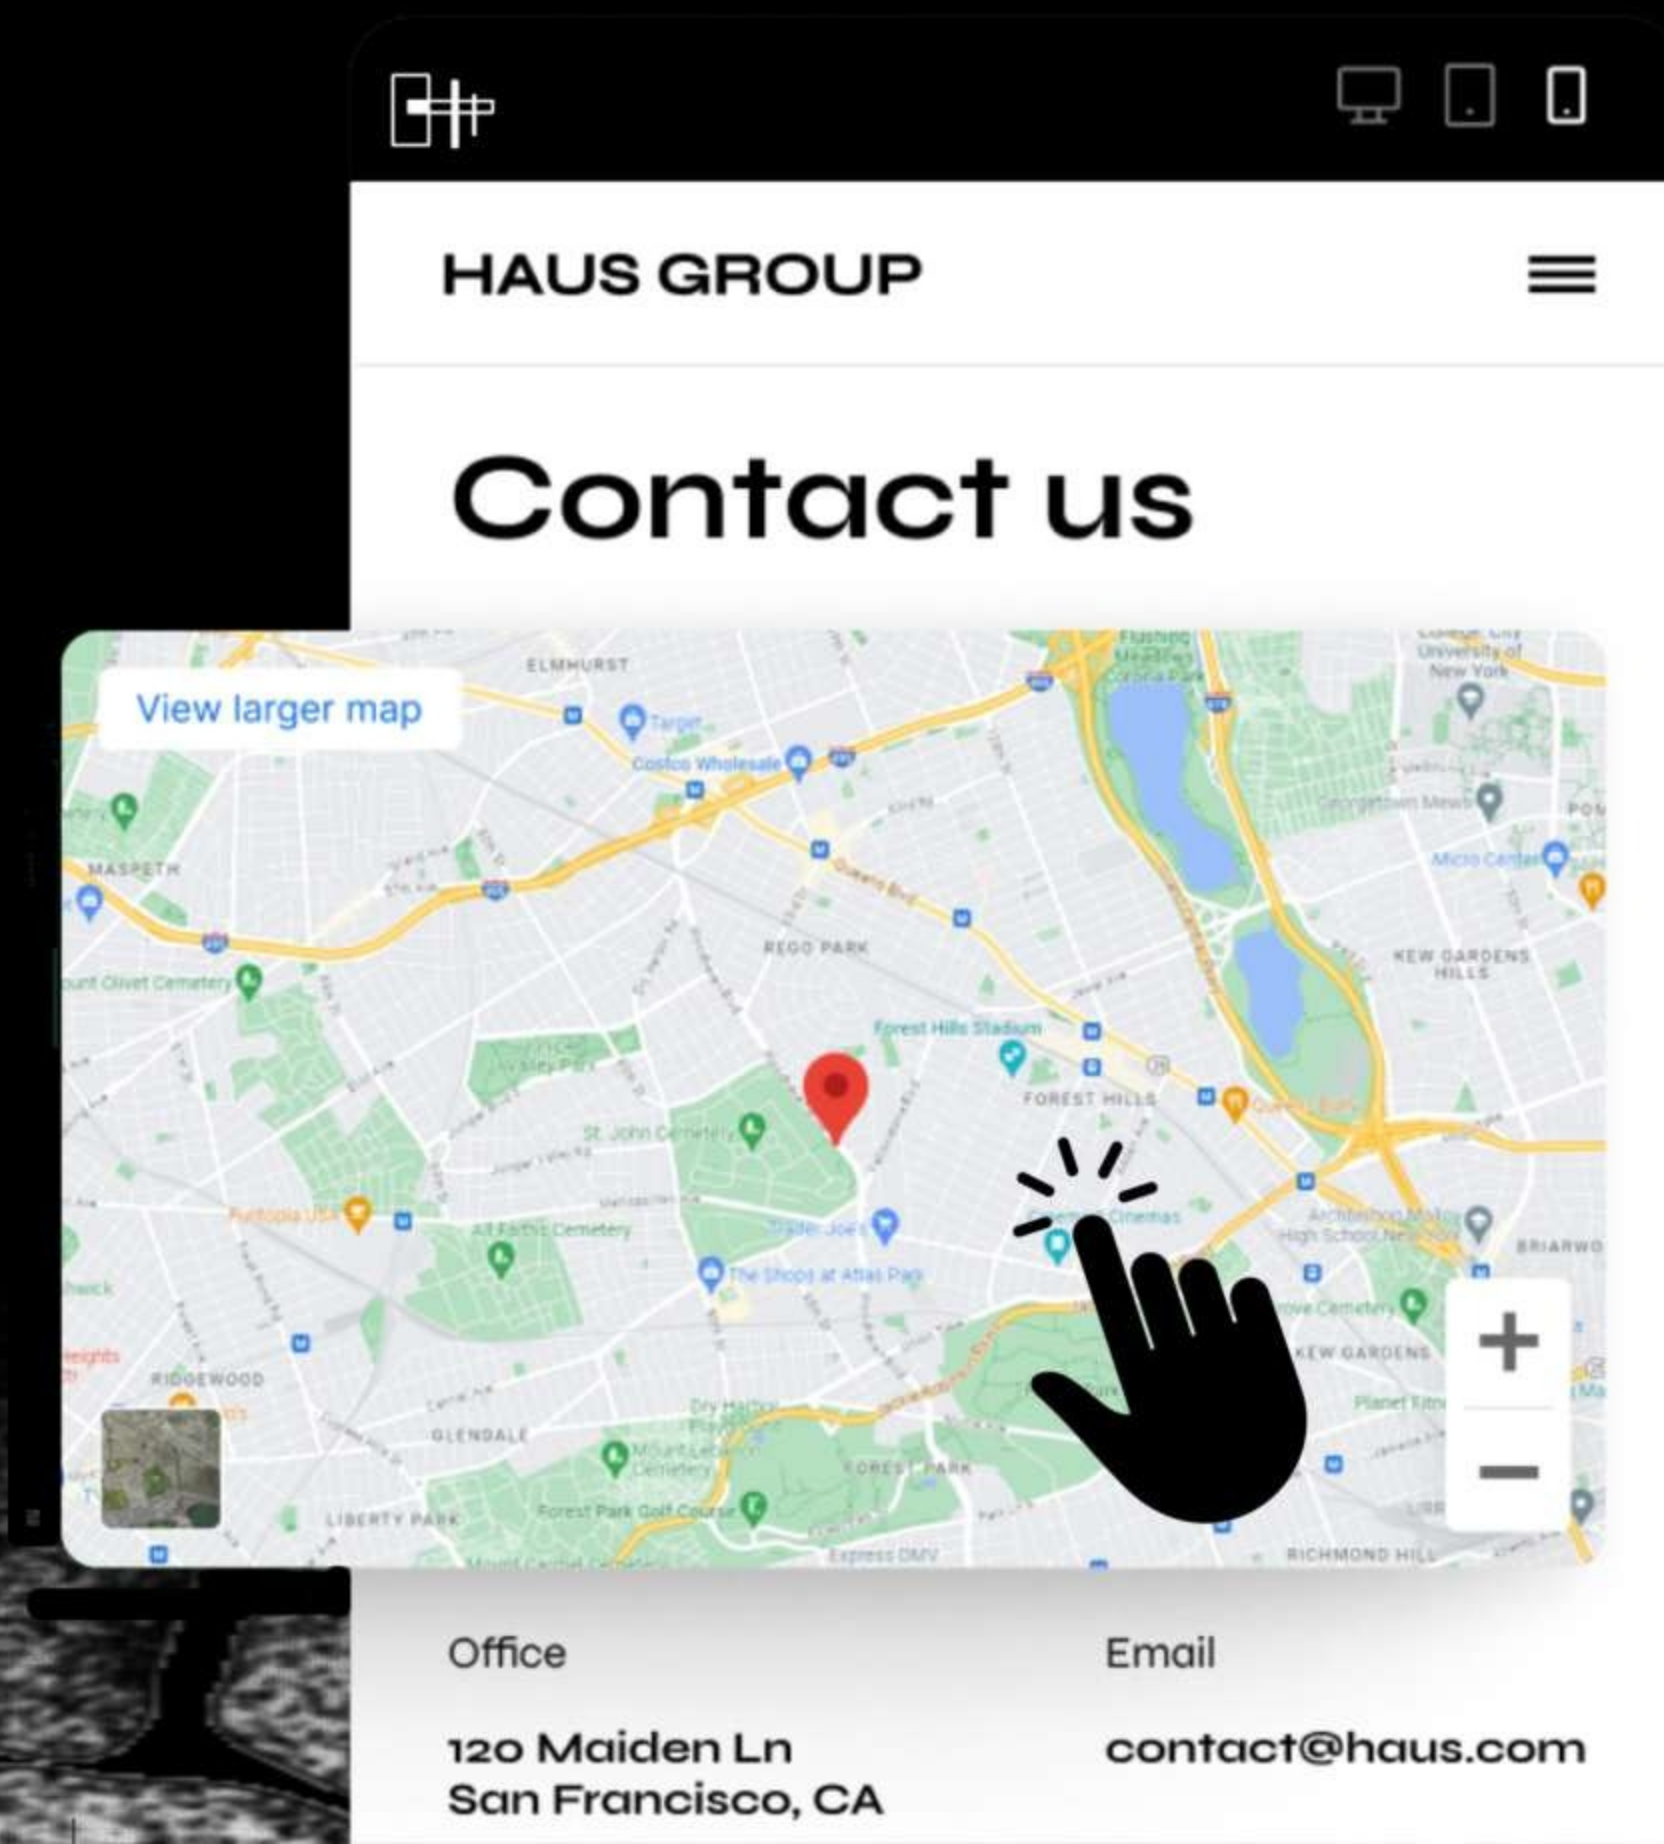

3- webdesign and
deployment

these websites include:

map embedding:

Google Maps

these websites include:

automated forms, once customers fill it you get their submission in gmail or Google sheets
