

Nick Cuda

Product Design Leader

SUMMARY

Los Angeles-based product design leader with a track record of designing engagement- and retention-driven experiences that generate millions in revenue across consumer and fintech products. I use research, analytics, and AI to turn ambiguous problems into experiences people love to use.

CORE SKILLS

A/B testing | AI augmentation | Claude Code | Cross-functional leadership | Design systems | Experimentation | Figma | Growth design | Leadership | Mentoring | Rapid Prototyping | Systems thinking | UX Research

EDUCATION

Drexel University

Bachelor of Science, Graphic Design

EXPERIENCE

Head of Product Design | Remento | 04/2026 - Present

- Integrated Claude Code with Figma's MCP, cutting prototyping time from days to hours.
- Designed a new onboarding experience to activate, engage, and form habits through badging, progress visuals, and animations.
- Balanced design system debt against shipping speed by upgrading components incrementally rather than blocking feature work.

Senior Product Designer, Contract | Remento | 02/2026 - 04/2026

- Fixed critical bugs across core app areas, improving project organization and reliability for users.
- Established product design principles that drive cross-functional alignment between design, eng, and product.

Senior Product Designer, Contract | Paramount+ | 01/2025-07/2025

- Led the design of a 0-1 short-form feature for TV's, establishing new product design principles and increasing content discovery by 10%.
- Enhanced the flow of switching user profiles, reducing steps by 50%.

Senior Product Designer | Intuit Mailchimp | 04/2021-09/2024

- Redesigned the pricing page, resulting in a 13% lift in paid bookings and a projected revenue increase of \$4 million.
- Led the in-app homepage redesign, resulting in a ≈28% lift in driving KPI's tied to customer upgrades and retention.
- Leveraged machine learning algorithms and generative AI to improve personalized recommendations, reducing churn by 15%.

Senior Product Designer, Contract | Altruist | 09/2021-02/2022

- Led an overhaul of internal tools for customer support agents, consolidating software and reducing task completion time by 34%.

Product Designer | Inspire Clean Energy | 02/2019-03/2021

- Led the 0-1 design of a native mobile virtual utility app that connected users with clean energy and reduced their carbon footprint.

UI/UX Designer | Faraday Future | 03/2018-12/2018

UI/UX Designer | Legend3D | 08/2017-03/2018

Visual Designer | EPAM Systems | 07/2014-07/2017
