WORK EXPERIENCE

July 2020 - Present

~4 years

Bangalore, India

Product designer II

Atlassian

- Presently, I lead the Billing permissions in Commerce and Billing team. It's a horizontal vertical that oversees roles and permissions across all Atlassian Billing interfaces. My work spans across the Growth, Administration, partner and customer support tools.
- I'm also leading the system of work scalability for Atlassian billing - it aims to make billing ready for enterprise users and new and acquired products.
- Previously, I have led Enterprise design, designed marketplace integrations, shopping cart and server to cloud migration for Atlassian billing. They're live at admin.atlassian.com/billing, atlassian.com/buy and atlassian.com/migration.

May 2019 - July 2019

~3 months

Bangalore, India

Product designer

Samsung

- Designed mixed reality experiences for AR Doodle native application and camera extensions.
- Conducted UX research studies to understand the new and emerging markets for Samsung Gear VR and mobile AR applications.

June 2018 - July 2018

~2 months

Gandhinagar, India

Product designer

Invention factory

- Designed a protective blanket system to prevent patients suffering from Parkinson's from injuring themselves while asleep
- Tested it with early customers to assess the comfort and filed a patent for the invention

April 2018 - June 2018

~2 months

Gandhinagar, India

Product designer

SRISTI UNICEF

- Conducted UX research with the salt farmers in Kutch to provide insights to the UNICEF team to innovate low cost strategies to aid in the work of the salt farming
- Conceptualised strategies to aid in finding the location of underground salt solution

Jan 2017 - Oct 2020

~3.5 years

Guwahati, India

Product designer (contract)

Able Jobs, TimelyAI, FabHotels, Reliance Jio

- Designed and built mobile and web apps for various zero to one B2B and B2C scenarios. Word of mouth got me more contracts amongst VC backed startups and I earned good money during college from this.
