

DESIGN HANDOFF CHECKLIST

Original Design Iceberg companion. Define the situation and keep evidence separate from assumptions. Add a sheet when the scope needs more space.

01 / SCOPE AND REFERENCE

What outcome, flow and version are we implementing? What is excluded?

02 / BEHAVIOUR AND STATES

Describe the normal path and applicable loading, error, empty and interrupted cases.

03 / CONTENT AND DATA

What labels, validation rules, long values or missing data must be supported?

04 / RESPONSIVE BEHAVIOUR

How does layout reflow between widths? What must remain visible and usable?

05 / ACCESSIBILITY

Names, keyboard operation, focus movement and announcements to verify.

06 / ACCEPTANCE EXAMPLES

Write observable normal and exceptional outcomes, with evidence references.

REVIEW & DECISION

Original Design Iceberg companion. Interpret the work, record its limits and agree a next action with an owner and a review point.

01 / JOINT WALKTHROUGH

What did design, development and testing understand differently?

02 / OPEN DECISIONS

List ambiguities, decision owners and whether each blocks implementation.

03 / DEPENDENCIES

Which component, data or policy assumptions still need confirmation?

04 / IMPLEMENTATION CHANGES

What intentionally changed, why and where is the reference updated?

05 / VERIFICATION

Which working cases passed, failed or still need testing?

06 / OWNER AND FOLLOW UP

Who closes each gap and when will the built flow be reviewed?
