University of California, Irvine

Masters in Human Computer Interaction & Design

SEPT 2023 - SEPT 2024

University of California, Los Angeles

 B.S Psychobiology

SEPT 2018 - JUN 2022

Work Experience

Deloitte Studio

 UX Design Associate

APR 2024 - PRESENT

- Solo UX designer for a government **web application** that serves as a platform to connect a **federal research consortium (60+ leading medical institutions)**.
- Worked closely with client to identify key **product requirements**.
- Designed high fidelity wireframes grounded in research and best practices, that went beyond client's expectations.

Gryphon Scientific

 UI/UX Designer

JAN 2023 - PRESENT

- Designed a web application that helps users track the state of vaccine misinformation on X (previously Twitter).
- Collaborated on a proof of concept and delivered an interactive prototype that helped win the Phase II Grant (**\$2m** in government funding from the NIH for **continued development**).

Webmaster

 Associated Graduate Students (AGS) at UCI

NOV 2023 - JUNE 2024

- Conducted **expert evaluations** and presented results, a strategy roadmap, and design recommendations to the AGS Board.
- Redesigned entire website on Wordpress with improved accessibility and a modern but friendly look and feel.

Projects

Monterey Bay Aquarium (Capstone Project)

 UX Designer

MAR 2024 - PRESENT

- Conducted user testing, quantitative surveys, user interviews and a focus group to gain research insights on the education lab.
- Designed wireframes and a final prototype for a new inventory management system from end-to-end.
