UI/UX Designer

Muhammad Arslan Sabir

Passionate UI/UX Designer with **2.5+ years** of experience crafting intuitive digital experiences for SaaS products, eCommerce platforms, websites, and mobile applications. I enjoy turning complex ideas into simple, user-friendly interfaces while maintaining strong visual consistency through scalable design systems. Experienced in collaborating with international teams to deliver impactful and business-focused design solutions.

Experience

MilestoneZero | May 2026 – Jul 2026 | Remote

Senior UI/UX Designer (Full time)

Led the design of modern SaaS platforms, dashboards, and web applications with a focus on usability, scalability, and user experience. Developed design systems, maintained brand guidelines, and created consistent, high-quality interfaces in Figma. Collaborated with cross-functional teams to deliver intuitive digital products aligned with business objectives.

Frenco.ae | Feb 2024 – Apr 2026 | On-Site

UI/UX Designer (Full time)

Designed modern eCommerce websites, mobile applications, and responsive web interfaces for clients across multiple industries. Created user flows, wireframes, high-fidelity designs, prototypes, and reusable UI components in Figma. Worked closely with developers to ensure pixel-perfect implementation while delivering intuitive, visually appealing, and user-centered digital experiences.

Frenco.ae | Aug 2023 – Feb 2024 | On-Site

UI/UX Design Intern

Supported the design team in creating responsive websites and mobile application interfaces. Assisted with wireframes, UI components, prototypes, and design systems while gaining hands-on experience with real client projects. Strengthened my skills in Figma, user experience principles, and collaborative product design workflows.
