

IQ BASS TRAP

InsulQuilts **Bass Traps** are designed to control and reduce low-frequency sound pressures within a space. By absorbing excessive bass energy and minimizing standing waves, bass traps help improve sound clarity, frequency balance, and overall acoustic performance. Bass Traps are commonly used in recording studios, home theaters, broadcast facilities, performance spaces, and other critical listening environments where capturing low-frequency waves are essential.

FEATURES

- **NRC 1.00**
- **IQ Sound Blanket Technology (greenGuard Gold Certified) Solid wood frame that is built to last**
- **Easy installation**
- **Low Maintenance**
- **Multiple color options**
- **50% Recycled Content**

Dimensions
2'W x 4'L x 6'D

Weight
17 lbs

Nominal Thickness 6"

Guilford of Maine™ Deco Cloth
