PROJECT EXPERIENCE

RefCycle — UX & UI Design

December 2023 - January 2024

Conceptual iOS application aimed at simplifying recycling, and helping users discover ways to manage waste that is difficult to recycle.

Sea Save Foundation — Visual & Interaction Redesign

October 2023 - November 2023

An overhaul of this non-profit organization's website interface was updated to increase user engagement and further share the foundation's outreach goals.

U.S. Department Of Energy — UX Research & UI Redesign

September 2023 - October 2023

Conceptual redesign and reconfiguration of the Department of Energy's website with a focus on desktop & mobile interfaces, and restructuring of their information architecture based on user testing.

Resourceful (Mobile App Concept) — UX Research & Prototyping

August 2023 - September 2023

Development & prototyping of a mobile app concept for making physical donations, based on researching user's needs, testing, and reiterating further.

EDUCATION

UC Berkeley UX/UI Bootcamp — UX Certification

July 2023 - January 2024

End-to-end certification course for developing UX skills and fundamentals from initial research to a final product.

Santa Barbara City College — Film & TV Production Associate's Degree

August 2012 - December 2015

Award received for Best Cinematography
