

Lysander Quiñones

UI/UX Designer | Web Designer | Interaction Designer

Philippines | (63) 9954215744 | qlysander27@gmail.com | [Portfolio Website](#)

UI/UX Designer specializing in web, SaaS, and product design, with strong experience in Figma, responsive design, interaction design, and design systems. Technical background in HTML/CSS and front-end development enables effective collaboration with developers.

TECHNICAL AND CORE SKILLS

- Interface Design
 - User-Centered Design
 - Prototyping
 - Developer Handoff
- Design Systems
 - HTML/CSS
 - Figma
 - UX Audits
- Framer
 - Javascript
 - Tailwind
 - Microinteractions
- Design Thinking

EXPERIENCE

BLUEDRIVE FCZO — *UI/UX Designer | Interaction Designer | Web Designer* February 2025 - Present

- Translated** business requirements and product goals into user-centered UI/UX solutions with clear hierarchy, intuitive navigation, and purposeful interaction patterns.
- Designed responsive experiences** across desktop, tablet, and mobile breakpoints while considering usability, accessibility, and implementation constraints.
- Collaborated with developers, founders, product stakeholders, and other designers to communicate design decisions, **resolve implementation questions**, and iterate based on feedback.
- Developed and maintain organized design systems and **component libraries** to improve consistency across multiple screens and digital products.

FULLSTACK DEVELOPER — *Fullstack Laravel Developer* August 2024 - December 2024

- Developed and **maintained web applications** using Laravel, PHP, Blade, HTML5, CSS3, Tailwind CSS, JavaScript, jQuery, and MySQL.
- Collaborated with design and development teams to **translate interface concepts** into functional web experiences.
- Implemented responsive layouts and **reusable front-end components** across web applications.
- Applied understanding of front-end implementation constraints to improve the practicality and **developer handoff** of UI/UX designs.

JAIROSOFT INC. — *Bubble Developer | UI/UX Designer* June 2020 - June 2022

- Audited and reviewed** UI/UX designs produced by fellow interns after their assigned design hours were completed, identifying inconsistencies, usability issues, and opportunities for improvement.
- Redesigned the Jairojobs Applicant Dashboard in Figma, **improving information hierarchy** and removing redundant functionality to create a clearer user experience.
- Worked within a **Scaled Agile Framework (SAFe)** project environment, participating in collaborative design and development workflows.
- Collaborated with the development team on Jairojobs, a job-hunting platform, **translating UI/UX concepts** into practical product requirements.

PROJECTS

AXIOM INFRASTRUCTURE — *UI/UX Designer*

- Designed a modern B2B corporate website for a data center and cloud infrastructure-focused business.
- Translated complex technical services into clearer content structures and user flows focused on credibility and lead generation.
- Collaborated with development to ensure the designs were practical to implement within a fast-paced delivery timeline.

TRANSACTION MANAGEMENT PLATFORM — *UI/UX Designer | Product Designer*

- Designed role-specific back-office experiences for sellers, buyers, and agencies, each with distinct workflows and operational needs.
- Applied information architecture and user-centered design principles to organize complex functionality across multiple user roles.
- Structured dashboards, navigation, and interaction flows for managing complex transactions and platform operations.

EDUCATION

STI COLLEGE OF DAVAO — *Bachelor of Science in Information Technology (BSIT)* September 2020 - June 2024
