

 **Evolve Dental Education**

COMPLEX PAEDIATRICS

FOR OHTS | 20 CPD | HANDS ON COURSE

WITH DR CARMEN CHAU

COURSE GOALS

1

OPTIMISE COMPOSITE & GIC RESTORATIONS

Make restorations easier and more efficient with the right material and technique.

2

CONFIDENTLY USE HALL CROWNS

Identify suitable cases and complete procedure confidently.

3

ADVANCE SSC & PULPOTOMY SKILLS

Refine case selection, pulp treatment and SSC placement.

4

DEVELOP LUXATOR & ROOT RETRIEVAL SKILLS

Be confident with extractions, luxator use and safe retrieval of retained roots.

5

COMPREHENSIVE PAEDIATRIC PLANNING

Diagnose and plan comprehensively including development and growth.

6

MANAGING THE UNCOOPERATIVE CHILD

Achieve cooperation for exams, LA and treatment.

HANDS ON EXERCISES

01

1. HALL CROWNS

Placement of separators, SSC selection and cementation.

02

2. PULPOTOMY + SSC

Practise pulpotomy with MTA, tooth reduction and SSC cementation.

03

EXTRACTIONS WITH LUXATORS

Develop your extraction and root retrieval technique using luxators and more.

04

SPACE MAINTAINERS

Selection, placement and cementation.

05

EFFICIENT RESTORATIONS

Refine restorative techniques using CR/GIC and sectional bands, focusing on predictable contacts and efficient clinical outcomes.

THEORY TOPICS

CARIES, HYPOMIN & HYPOPLASIA

Management protocols including when and why to choose different materials and techniques.

HALL CROWN TECHNIQUE

The evidence, indications, contraindications and technique.

PULP THERAPY + SSC

Case selection, indications and medicament selection for pulpotomies & pulpectomies..

LUXATOR EXTRACTIONS & ROOT RETRIEVAL

When to extract and guidance on luxator and root retrieval techniques.

SPACE & DEVELOPMENT

Eruption, space management and space maintainer techniques.

COMMUNICATION & BEHAVIOUR MANAGEMENT

Practical strategies to improve compliance, manage challenging behaviour and communicate effectively with children and parents.

COMPREHENSIVE PAEDIATRIC ASSESSMENT

Thorough approach from E/O assessment down to the individual tooth and incorporating them into age-appropriate treatment plans.

LIMITED SPOTS
