Phone: +49 176 35472070

Location: Berlin, Germany

Professional Experience:

•World Design Capital, Lust auf besser leben e.V. – Public designer

– Frankfurt, Germany (10/2025 – 03/2026)

Designing sustainable public furniture and spatial setups that encourage community interaction. for the Frankfurt Design Capital event.

•Stova Kitchens – Site Sales Engineer

– Cairo, Egypt (11/2024 – 10/2025)

Designed residential kitchen and interior layouts, developed custom storage solutions, and coordinated directly with clients from concept development to execution.

•Nord Furniture – Furniture Designer

Intern – Cairo, Egypt (2024 (1 month))

Assisted in designing home furniture concepts and creating 3D models.

•GUC – Model Making Lab

Intern – Cairo, Egypt (2024 (3 months))

Supported students in building 3D models using 3D printing and model-making tools.

•PIMC – Plastic Injection

Intern – Cairo, Egypt (2023 (1 month))

Learned and simulated plastic injection processes and operated related machinery.

•PIMC – CNC Programming

Intern – Cairo, Egypt (2023 (1 month))

Used Fusion 360 to simulate and program CNC machinery to manufacture steel moulds.

•Upwork – Editorial Designer

(Freelance) – Remote (2021 – 2022)

Designed magazine layouts for The Everyday Innovator for eight consecutive issues.

•Upwork – Video Editor

(Freelance) – Remote (2021)

Edited videos using Procreate and After Effects, including color grading and motion graphics.

Education:

•Master of Science in Design – German

International University (GIU-Berlin),

Berlin, Germany. 2024 – 2026

Public & Furniture Design

Research on modular design strategies and material selection for sustainable, adaptable public furniture and spaces.

•Bachelor of Applied Sciences and Arts

– Industrial & Product Design – German

University in Cairo

Skills:

- Rhinoceros, SketchUp, V-Ray, AutoCAD, KeyShot**
- Adobe Creative Suite: InDesign, Photoshop, Illustrator, Premiere Pro, and After Effects**
- Fusion 360 CAM simulation, SolidWorks plastic injection simulation
- Model making, 3D printing, CNC programming
- Product management fundamentals (USMx)
- Achieving Product-Market Fit (USMx)

Languages:

Arabic – Native
English – Fluent
Turkish – Fluent
German – B1.1
