

Idea Synthesis Grid

PURPOSE OF THIS WORKSHEET

This is not where you write your ideas, it is a tool to help generate ideas using the Cardinal Sources. Refer to the Creative Prompts on the next page for inspiration.

[illegible]

Idea Generation: Creative Prompts

- How could you use one of your strongest Cardinal Sources to address one of your weakest Joy-CHEC areas?
- What existing asset could be amplified rather than creating something new?
- What would happen if two Cardinal Sources were brought together in a new way?
- How could barriers and blocks be removed through design?
- If budget, ownership and permissions weren't barriers, what would happen here?
- What would children design?
- If this became Plymouth's most Joyful place, what would be different?
- What local stories aren't being told?
- What could only exist here? How can we build upon that?
- What's the idea you have that you think is too big or wild to mention?
