

APR DEMONSTRATED IN THREE FORMS

01

INDIVIDUAL involving direct, often hateful, interactions that target, intimidate, and stereotype Palestinians or their allies.

02

INSTITUTIONAL occurs within established organisations - such as schools, workplaces, media, and governments - through policies and practices that discriminate against or silence Palestinians.

03

STRUCTURAL embedded in societal, legal, and economic systems that produce unequal outcomes for Palestinians, often normalising their marginalisation.

WHAT IS ANTI-PALESTINIAN RACISM (APR)

Anti-Palestinian Racism is a form of racism that silences, excludes, erases, stereotypes, defames or dehumanises Palestinians or their narratives.

APR doesn't just impact Palestinians, our allies are also deeply impacted by this form of hate.
