RE: SUBMITTAL CHECKLIST
STOP-WORK ORDERS AND UNPERMITTED WORK, VANCOUVER, WA

Use this checklist after a Vancouver stop work order or a notice for work done without a permit.

FIRST STEPS

- [ ] Read the notice for the appeal right under VMC 22.03.020
- [ ] Write down the corrective date on any code compliance notice; daily penalties can follow it
- [ ] Stop work until the City authorizes it

FIELD EVALUATION PERMIT

- [ ] Apply for the Field Evaluation Permit (2026 fee: $152)
- [ ] Schedule inspection 260, Investigative Inspection BLD
- [ ] Schedule inspection 770, Investigation Electrical
- [ ] Keep the inspector's report: it sets which permits the work needs

PERMIT APPLICATION

- [ ] Plans and documents the inspector's report calls for
- [ ] Investigation fee equal to the required permit fees, due at or before issuance
- [ ] Apply through the Online Permit Center and ePlans

SASHKOV can also record existing conditions before covered work is opened, prepare the permit set for the work as built, coordinate the structural engineer, and answer corrections through to final inspection.
Next step: scan the code above or start your project online. info@sashkovgroup.com, +1 (503) 341-8790.
General checklist from published sources read 11-07-2026. Requirements change; confirm with the permitting authority. Not legal advice.
