

Realize the promised returns of AI: choose a vendor with a high-touch approach and proven success

Improve your ROI

Ensure AI-assisted workflows are suitable for your needs and widely adopted to realize the investment

Effortless buy-in

Let us help you bring your internal stakeholders on the journey for successful transformation

Stay competitive

Don't let your competitors get ahead with a more efficient and precise AI-assisted talent strategy

FLEXIBLE

We can meet you where you are today to achieve your AI goals

Every customer comes to us with a unique starting point. You can flexibly deploy AI in our platform after you go-live, ensuring you realize faster time-to-value with your hiring objectives. Avoid lengthy delays in passing internal testing and compliance checks, or gaining approval from your AI committee. Plus, give yourself enough time to bring your teams on the journey to drive adoption in AI-assisted workflows. We'll work with you to tailor your path to success.

EXPERIENCED

We've a track record with even the most highly regulated industries

With more than a decade of experience in implementing ethical and efficient AI-powered solutions to support talent strategies, we can anticipate your needs. We've had success with highly regulated financial institutions and technology companies with their own deep expertise in AI, alike. Expect us to bring our wealth of knowledge to help you overcome objections and hurdles, from a range of internal stakeholders, for fast and effortless alignment.

TRUSTED

We'll future proof your AI strategy for HR

We're active thought leaders in AI innovation, regularly contributing to research and staying ahead of the curve with upcoming regulations. This gives you peace of mind that you're choosing a non-reactive provider that will ensure your AI strategy stays compliant today, and in the future.

Committed to shaping the future and staying compliant: one of the first signatories to the [EU Pact](#), demonstrating Beamery's broader commitment to ethical AI and transparency.

Meets internationally recognized standards: ensuring AI technologies are developed and deployed in a manner that is not only efficient but also ethically responsible and secure.

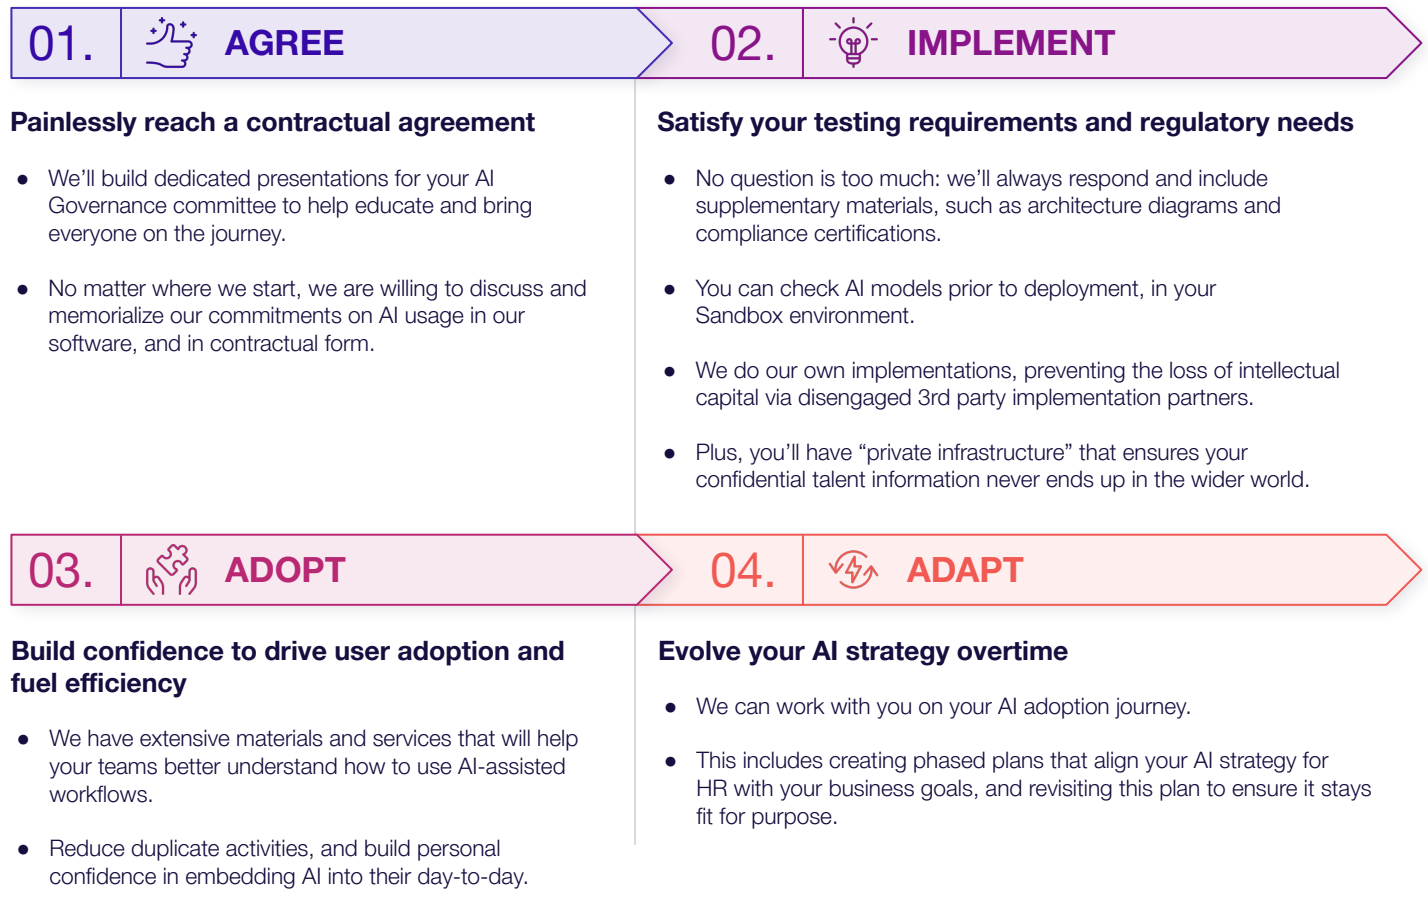

Audited by an independent third-party: monthly [bias audits](#) on gender, race, and ethnicity, in accordance with the requirements of NYC Local Law 144.

Recognized for applying ethical AI to solve real problems: 2023 Winner in the [Artificial Intelligence Excellence Awards](#) program by the Business Intelligence Group.

How can Beamery help me confidently and effortlessly deploy AI?
