## EDUCATION

**University of Illinois Urbana-Champaign**

Champaign, IL

**Bachelor of Science in Computer Science + Economics**

Expected Graduation: August 2026

**Honors/Awards:** Academic Honor (2022-2023)

**Courses:** Advanced C++ Programming, Programming Languages & Compilers, Operating Systems Design

## SKILLS

**Programming languages:** Python, Java, C++, C#, JavaScript/TypeScript, SQL

**Tools:** Linux, Docker, Git

**Front End:** ReactJS, React Native, NextJS, Meteor, Expo

**Cloud:** GCP, Render, Vercel

**Back End:** Node, NestJS, MySQL, PostgreSQL, MongoDB, Prisma

## EXPERIENCE

**Plaidypus - Software Development Intern** | Naperville, IL

February 2022 – August 2024

- Built core features for a patient-progress mobile app and admin dashboard serving an addiction treatment center, working with the client to define requirements; implemented profile management, Stripe payment processing, and in-app messaging (React Native, Next.js, PostgreSQL, Prisma, tRPC, Docker)
- Worked directly with a vocational consulting firm to translate staff needs into features; configured custom Zoho CRM modules, workflows, and blueprints, and built an integrated web app that automated Life Care Plan generation, client e-signatures, and invoicing (Zoho, React, Meteor, MongoDB)
- Contributed to a white-label mobile app for park districts, configured through a multi-tenant admin dashboard. Clients customized branding, tabs, events, news, and facility maps, with one codebase deployed as separately branded apps per district; built the maps, contacts, events, and barcode facility-access features (React Native, Expo, React)

**Bilato Truck Center - Freelance Web Developer** | Bensenville, IL

June – August 2023

- Worked directly with the shop owner to scope requirements, then designed, built, and deployed a responsive company website (Next.js, Vercel, Chakra UI)
- Implemented on-page SEO including metadata, alt text, and search-aligned copy, plus backlink building, and set up Google Search Console and Analytics to track search performance

## PROJECTS

### Campus Leftovers

- Built a campus food-sharing web app with two teammates, where UIUC students post and discover free leftover food in real time on a campus map, with listings sorted by expiration
- Developed the FastAPI backend and Supabase integration: CRUD routes, request validation, @illinois.edu-restricted registration with email confirmation, session management, and role-based access with an admin dashboard
- Built with: Python, FastAPI, Supabase (Auth, PostgreSQL), Render

### **Music Box**

- Developed a web application where students queue songs for in-class play and teachers moderate the queue and control Spotify playback through a separate portal
- Built a RESTful Node.js and Express back end with Google OAuth sign-in and session management, backed by MongoDB
- Built with: Node.js, Express.js, MongoDB, Spotify API, Google OAuth, HTML/CSS, Heroku

## AFFILIATIONS & INTERESTS

**Volunteer** | [Alif Foundation](#) | Aurora, IL

June 2022 – Present

**Lead Developer** | **College of DuPage Game Development Club** | Glen Ellyn, IL

September 2022 – May 2023

**Interests:** MMA (Mixed Martial Arts), Cinematography, Gaming
