Presence & Development

Our Services

01.

Industrial Construction

Designing And Building High-
Performance Industrial Infrastructure.

02.

Construction & Public Works

To Bring To Life Buildings And Structures
Adapted To Each Use.

03.

Industrial Engineering

Transforming Technical Requirements
Into Concrete And Sustainable Solutions.

Our Work Process

Project Study

We Analyze Your Needs, Constraints And Objectives To Define The Best Solutions.

Technical Design

We Design Solutions Tailored To The Technical And Functional Requirements Of The Project.

Realization

Our Teams Manufacture And Implement Each Element With Precision And Rigor.

Final Delivery

We Ensure Setup And Compliance Before Project Delivery.

Mit Chimie S.A

As Part Of The Modernization Of Its Industrial Site, SOBAMEC Assisted Mit Chimie In Redesigning The Exterior Appearance Of Its Administrative Building. The Project Involved Installing A New Alucobond Cladding, Designed To Modernize The Building's Architecture While Reinforcing Its Visual Identity.

This New Architectural Envelope Incorporates The Codes And Colours Of The Mitimé Brand, Creating A Façade That Is Contemporary, Elegant And Consistent With Its Industrial Positioning.

Random Project

SOBAMEC Oversaw The Complete Construction Of This Building, From Foundation Work To Finishing Touches, Managing Every Stage Of Its Development. From The Building's Structure And Elevation To Masonry, Metalwork, Cladding, And Interior Design, Each Element Was Meticulously Planned And Executed To Ensure A Cohesive, Functional, And Durable Structure. This Project Fully Demonstrates SOBAMEC's Ability To Manage A Construction Project From Start To Finish, Ensuring Control Over Each Stage Until The Delivery Of A Fully Completed Building.
