INTERNSHIP

UI/UX Design - This UX **2024**
Experienced in internship program on UI/UX design with This UX, focusing on mobile design. Developed Flex Rent, a mobile UI/UX project showcasing proficiency in design principles and tools. Ready to apply learned skills in real-world projects.

Web Development trainee (MERN) - Channel B.Tech **2023**
Experienced MERN developer with a completed internship at Btech Channel. Proficient in MongoDB, Express.js, React, and Node.js, with a track record of successful projects in MERN development. Ready to contribute expertise and passion for web development to new opportunities.

PROJECTS

Opit Short (UI/UX Design) **2024**
The mobile-based app design caters to photography enthusiasts who often grapple with finding the ideal angle for their shots, resulting in less-than-ideal compositions. The app's primary objective is to alleviate this challenge by offering real-time guidance, guaranteeing that every photograph encapsulates the moment flawlessly. **TOOL:** Figma & Excalidraw

Flex Rent (UI/UX Design) **2023**
The mobile-based rental app design seamlessly integrates an intuitive user interface, ensuring a professional and effortless user experience across various rental categories, including bikes, cars, houses, rooms, mobile devices, and more. **TOOL:** Figma & Excalidraw

Instagram Podcast (UI/UX Design) **2023**
Spearheaded the creation and development of the "Instagram Podcast" project, a pioneering initiative within the Instagram platform. Directed a cross-functional team of developers, designers, and marketing specialists to execute the project. **TOOL:** Figma & Excalidraw

E-commerce Website for Helmet Store (MERN) **2023**
Developed a skilled Full Stack Developer specializing in the MERN Stack, proficient in creating intuitive e-commerce websites with seamless user interfaces and robust backend systems using React.js, Node.js, Express.js, and Firebase. **TOOL:** Visual Studio Code
