

MICHEAL ADENIJI

Product Designer | UI/UX Designer

Abuja, Nigeria | micheal.adeniji03@gmail.com | +234 901 927 1770

Portfolio: michealadeniji.framer.website | LinkedIn: <https://www.linkedin.com/in/micheal-adeniji/>

PROFESSIONAL SUMMARY

Product Designer with 2 years of professional experience delivering end-to-end UX/UI design across enterprise platforms, fintech, logistics, and consumer services. Skilled in design thinking, user research, information architecture, wireframing, interaction design, high-fidelity UI, prototyping, and usability testing. Experienced in building and maintaining component libraries and design systems in Figma. Adept at working cross-functionally with developers, product managers, and stakeholders in Agile/Scrum environments to ship user-centered, accessible, and mobile-first digital products.

SKILLS & TOOLS

Design Tools: Figma, Affinity Designer, Canva

Core Skills: UX Research, Design Thinking, Wireframing, User Flows, Information Architecture, Interaction Design, Prototyping, Usability Testing, High-Fidelity UI, Visual Design, Design Systems, Component Libraries, Responsive Design, Mobile-First Design, Accessibility (WCAG), Design Handoff

Collaboration: Cross-functional teamwork, Stakeholder communication, Agile/Scrum, A/B Testing, Competitive Analysis, User Personas

PROFESSIONAL EXPERIENCE

Product Designer | *I4 Integrated Services Ltd, Nigeria*

Sep 2024 – Aug 2025

- Led end-to-end UX/UI design for an NDA-protected national government regulatory platform, digitising paper-based environmental compliance workflows into scalable digital systems used by tens of thousands of companies and consultants.
- Owned the complete product design lifecycle of a digital revenue management system as the sole designer from UX research, user personas, and competitive analysis through user flows, wireframing, prototyping, and high-fidelity UI delivery.
- Built and maintained a component library and design system in Figma, ensuring visual consistency and design handoff efficiency across multiple teams.
- Collaborated cross-functionally with developers, product managers, CTOs, and stakeholders to align interaction design and interface decisions with policy, compliance, and technical requirements.
- Contributed to the successful deployment of digital products that enhanced service delivery and operational efficiency at scale.

- Produced high-fidelity UI designs in Figma, contributing to interface refinements and maintaining visual consistency across the product.
- Supported usability testing sessions, identifying key pain points that informed iterative design improvements across core user flows.
- Developed rapid prototyping and interaction design skills through hands-on Figma work, building a strong foundation in mobile-first and responsive design.

- Assisted the design team with high-fidelity UI design work, contributing to interface refinements and visual consistency across digital products.
- Designed pitch deck and marketing collateral used to support client presentations and business development efforts.

SELECTED PROJECTS

Quiqit – Logistics Management System

- Designed a digital logistics management platform to simplify shipment tracking and management for individuals and businesses, covering UX research, user flows, wireframing, and high-fidelity UI in Figma.

HelpMall – Service Marketplace

- Designed a digital marketplace connecting homeowners and businesses with verified domestic and event service providers, focusing on trust-centered UX, onboarding flows, and information architecture.

MomHaven – Postpartum Wellness App

- Designed a postpartum wellness mobile app for Nigerian mothers—covering community circles, expert session booking, daily mood log with crisis detection, and a complete design system built on culturally grounded visual language.

Paywise – Fintech Mobile App

- Crafted a fintech mobile app UI to simplify everyday financial transactions, exploring interaction design patterns, visual design systems, and mobile UX best practices.

Shadow Browser – Web3 Product

- Designed a decentralized Web3 browser product enabling users to create crypto wallets, register blockchain domain names, and host decentralized websites covering end-to-end UX for a novel, complex user journey.

EDUCATION

Bachelor of Technology — Physics / Computer Science (Combined Honours)

Federal University of Technology, Minna, Niger State

Apr 2024
