SENIOR FULL STACK DEVELOPER (WEB & MOBILE)

I'm a dedicated Full Stack Developer with over 8 years of experience turning ideas into powerful, user-focused digital solutions.

I specialize in building websites, web applications, mobile applications, and AI-driven solutions that are scalable and impactful. With a strong track record in both startups and established companies, I thrive in environments that value innovation and collaboration, consistently delivering results that make a difference.

SKILLS & TOOLS

Frontend Development: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, TailwindCSS, Redux, Framer, SquareSpace, WordPress, Shopify, Webflow

Backend Development: Node.js, Express.js, Nest.js, Python, PHP, RESTful APIs, GraphQL, PostgreSQL, MongoDB, DynamoDB, Strapi

Mobile Development: React Native, Progressive Web Apps, Flutter

AI & Data Solutions: ChatGPT, AI-powered applications, Data Management, Cloud Computing (AWS, Azure, Firebase)

Development Tools: Git, Docker, Postman, CI/CD pipelines, Webpack

Design Tools: Figma, Adobe XD

Collaboration Tools: Jira, Trello, Slack, Notion, Asana

Soft Skills: Collaboration, Adaptability, Communication, Problem Solving, Attention to Detail, Project Management

Technical Skills: Agile Development, Scrum Framework, Kanban

Continuous Learning: Exploring emerging technologies and best practices to craft innovative solutions

WORK EXPERIENCE

UPWORK (Remote)

Mar 2020 - Present

Freelance Full Stack Developer

- Successfully delivered 40+ projects for diverse clients, maintaining a 100% Job Success Score and earning a Top Rated badge.
- Worked with startups and enterprises to build websites, web applications, mobile apps, and AI-driven solutions, meeting and exceeding client expectations.
- Collaborated remotely with international teams, managing projects across various industries and leveraging multiple tools and technologies.
- Developed scalable, user-friendly solutions while ensuring seamless communication and project transparency.

ZOCKET, UNITED STATES | INDIA (Remote)

Aug 2024 - Dec 2024

Frontend Developer

- Played a key role in building Zocket, a platform leveraging AI tools to enhance ad collection and analytics for businesses.
- Developed an intuitive dashboard that allows users to spy on and search through competitor ads with advanced filters, enabling data-driven marketing strategies.
- Collaborated with cross-functional teams to design scalable and user-friendly features, improving platform efficiency and usability.
- Implemented backend logic and frontend interfaces to support AI-driven insights, ensuring seamless data processing and visualization.
- Utilized technologies such as AI, React, Next.js, TypeScript, TailwindCSS, Git, APIs etc to deliver high-performance solutions.

FILL EASY (HAD), HONG KONG - CHINA (Remote)

Aug 2023 - Mar 2024

Full Stack Developer + Designer

- Played a key role in developing a HongKong government portal for assigning burial grounds, streamlining and digitizing a previously manual process.
- Designed the entire user interface from scratch using Figma, ensuring a user-friendly and visually appealing design tailored to client requirements.
- Built and implemented the portal, developing both the frontend and backend to create a seamless and efficient experience for users.
- Collaborated with stakeholders in Hong Kong to gather requirements and deliver a solution compliant with government regulations.
- Utilized Figma, Next.js, TypeScript, Redux, Serverless implementations with AWS, AWS Amplify etc to build a secure, scalable, and reliable platform that met the unique needs of the project.

HEAVYOPS, UNITED STATES (Remote)

May 2023 - Dec 2023

Mobile Developer

- Contributed to the development of a mobile application, focusing on creating a seamless and intuitive user experience.
- Designed and implemented key features to enhance app functionality and performance, ensuring a robust and responsive application.
- Collaborated with cross-functional teams to align the app's design and development with business goals and user needs.
- Leveraged React Native, TypeScript, Redux, APIs, Python etc to deliver a high-quality mobile solution within tight deadlines.

ASTATS APARTMENTS, NIGERIA (Hybrid)

Jan 2023 - Dec 2023

Senior Full Stack Developer

- Worked in a hybrid environment to build a custom website and booking platform for Astats Apartments, a real estate company.
- Designed and developed a user-friendly website to showcase available properties, providing potential guests with a seamless browsing experience.
- Built a custom booking system integrated with the website, enabling real-time booking and reservations management.
- Collaborated with both onsite and remote teams to ensure smooth development processes and quick problem-solving.
- Focused on optimizing the platform for user engagement, ease of use, and backend scalability.

KWAH LEARNING, UNITED STATES (Remote)

Aug 2023 - Jan 2024

Senior Full Stack Developer

- Built a comprehensive learning platform enabling parents to sign up their kids, featuring a dynamic landing page and user-friendly parent portal.
- Developed a robust backend portal for administrators to manage users, content, and platform operations efficiently.
- Designed and implemented scalable, secure, and intuitive features, ensuring a seamless experience for both parents and administrators.
- Collaborated with stakeholders to gather requirements and deliver a solution that aligned with the platform's educational goals.
- Utilized Framer, Next.js, React, Strapi, React Native, Redux etc to ensure smooth integration and reliable performance across all portals.

DFSEC (DATAFLOW SECURITY), ITALY (Remote)

April 2023 - Nov 2023

Full Stack Developer

- Built a bug bounty platform from scratch, handling both frontend and backend development.
- Developed the frontend using React, ensuring a user-friendly and responsive interface for participants and administrators.
- Managed the backend with Python, creating secure and scalable features to support the platform's functionality.
- Integrated APIs and optimized performance to deliver a seamless experience for users reporting and managing security vulnerabilities.
- Collaborated with the security team to ensure the platform adhered to best practices in security and scalability.

NTSOFT, UNITED STATES (Remote)

April 2023 - Nov 2023

Full Stack Developer

- Successfully handled multiple outsourced projects, delivering professional and high-quality solutions within deadlines.
- Managed diverse requirements, ensuring each project met client expectations and adhered to industry standards.
- Demonstrated versatility by working across various domains and technologies to deliver impactful results.
- Maintained clear communication with stakeholders and provided regular updates on project progress.
- Ensured confidentiality.

TOP TIER BRANDING AGENCY, UNITED STATES (Remote)

Dec 2020 - Aug 2021

Full Stack Developer + Mobile Developer

- Worked on multiple websites, web applications, and mobile applications, delivering high-quality solutions tailored to client needs.
- Designed user interfaces and crafted seamless user experiences, ensuring intuitive navigation and visually appealing designs.
- Collaborated with development teams to implement designs and optimize functionality for maximum user engagement.
- Focused on responsive design, usability testing, and iterative improvements to enhance overall product performance.

BRANDING DAIL, UNITED STATES | UNITED KINGDOM (Remote)

Jun 2016 - Nov 2020

Full Stack Developer + Project Manager

- Managed over a 100+ projects over 4 years, collaborating with clients across various industries to deliver impactful branding and digital solutions.
- Played a key role in developing websites, web applications, and mobile apps, ensuring seamless project execution from concept to completion.
- Worked closely with cross-functional teams, ensuring timely delivery and maintaining high standards of quality across all projects.
- Developed scalable solutions, emphasizing user experience, responsiveness, and brand consistency.

I have a diverse range of experiences and would be happy to share more upon request.
