

NDT Europe-Equities Quality Momentum

A systematic European equity satellite strategy that combines quality characteristics with regime-based momentum in a diversified portfolio.

EQM

Advertising per Art. 68 FinSA
Data as of August 31, 2026

Strategy

- **Goal:** A satellite solution to complement existing portfolios with liquid European equities.
- **Dual Strategy Architecture:** Two complementary approaches in one portfolio, split equally between regime-based momentum and quality.
- **Momentum:** In positive market trends we select from the entire universe; in weaker phases, from defensive sectors, so the strategy stays fully invested across all market regimes.
- **Quality:** A selection of sustainably profitable, earnings-stable companies whose growth and valuation are in balance.
- **Systematic Approach:** A rule-based, quantitatively grounded methodology designed for long-term robustness.

Note: Implemented as an AMC since Oct 2025. Earlier performance figures are based on our simulation.

¹ For comparison purposes, the iShares STOXX Europe 600 ETF (including dividends) is shown.

Top 5 Holdings

(by weight)

1	 Aker ASA	5.0%
2	 Motor Oil Hellas Corinth Refineries	4.8%
3	 AT&S Austria Technologie & Systemtechnik	4.7%
4	 Raiffeisen Bank International	4.3%
5	 ArcelorMittal	4.3%

Monthly Insights

The portfolio gained 2.8% in August, outperforming the iShares STOXX Europe 600 ETF, which rose by 1.2%. The positive performance was mainly driven by stock selection in the overweight Industrials and Energy sectors. Aker, KONE and GEK Terna performed particularly well within Industrials, while Motor Oil Hellas, Repsol and TotalEnergies supported performance in the Energy sector. The overweight position in Consumer Staples also contributed positively, while Utilities slightly weighed on performance. Among the strongest individual contributors were Aker, Motor Oil Hellas and AT&S.

About Us

NDT Capital Partners is an asset management boutique based in the canton of Zug, founded in 2018. The firm is a member of the Self-Regulatory Organisation (SRO) VQF and registered in the Swiss Client Advisor Register. It specialises in the development of systematic investment strategies.

Its product development approach is grounded in financial theory and supported by quantitative methods. Thanks to its proximity to the University of St.Gallen, the latest academic findings are tested and further developed. The focus lies on simple, robust investment strategies with clearly defined and rule-based logic.

Disclaimer

This document is advertising material according to Art. 68 FinSA. This publication makes no claim to completeness or correctness. The use of the information is the sole responsibility of the reader. Investors should read the key information in the factsheet and termsheet before investing. Shares in the investment products mentioned in this publication may not be offered, sold or delivered to certain persons or in certain jurisdictions or to persons with connections to certain jurisdictions. Further information can be found in the term sheet. The investment involves substantial risk of loss and is not suitable for all investors. Consider your experience, investment objectives, assets, income and risk appetite before investing in any of our products. There is a possibility that you may lose some or all of your initial investment. You should therefore not speculate, invest or hedge if you cannot afford a loss, have borrowed the capital, need it urgently or the amounts are necessary for your private living or that of your family. You should be aware of all the risks associated with trading and seek the advice of an independent financial adviser if you have any questions. All financial investments carry an element of risk. Therefore, the value of your investment and the income from it will fluctuate and your original investment amount cannot be guaranteed. The value of equities and equity-related securities may be affected by daily price movements on the stock markets. Other factors include political and economic news and major corporate events. Counterparty risk: The insolvency of companies that assume custody of assets or act as counterparties for derivatives or other instruments may expose the strategy to losses. The figures shown relate to past performance. Past performance is not a reliable indicator of future performance and should not be the sole factor in selecting a product or investment strategy. The simulated performance is shown in the currency shown in the product details table and adjusted for trading fees, issuer's fee, management fee and performance fee. The key figures were calculated on the basis of daily prices. Due to currency fluctuations, your return may be higher or lower if you invest in a currency other than the one in which the performance was calculated. Investments in securities are subject to non-existent or loss of protection of intellectual property rights, rapid technological changes, regulatory changes and changing competition.
